PREFACE

The twenty-fourth edition of the *Florida Statistical Abstract* continues a tradition of providing comprehensive and timely statistics about the social, economic and political organization of Florida. Every effort is made to publish the most up-to-date figures possible. However, because these data have been collected by many entities--state and federal, private and public--they cover activities occurring in different periods of time. It is impossible to insure uniformity, but time periods are always stated in the tables.

The purpose of the *Florida Statistical Abstract* is twofold; it serves as a convenient volume for statistical reference and as a guide to other statistical publications and sources. Source notes are given at the bottom of each table in the *Abstract*. Data not available in publications but obtained from an agency are identified in the source notes as "unpublished data." Usually more statistical detail and more comprehensive discussion of methods and definitions exist in the source than can be included in the *Abstract*. Often an issuing agency has additional or updated data available after the *Abstract* goes to press. Suggestions for locating sources or additional information are in the Appendix.

Statistics in this edition are generally for the most recent year or period available by the summer of 1990. Each year all tables are reviewed: new tables of current interest are added, continuing series are updated or revised to reflect changes in source definitions or methods, and less timely data are eliminated. Some tables of "benchmark" data, although not timely, are repeated. The user is encouraged to use tables in earlier editions, particularly for census data. At the back of this edition is an index of census tables appearing in previous editions.

Organization of the *Florida Statistical Abstract*. The *Abstract* is organized around five divisions each of which is subdivided into sections. Table numbers correspond to the section numbers. The first division (Sections 1.00 through 7.00) generally includes tables presenting data on characteristics of the population: number of people, housing, health, education, income, employment, and welfare. The next three divisions covering Sections 9.00 through 23.00, (Section 8.00 presents data on geography and the environment), primarily refer to establishments engaged in economic, social, and political activities.

Establishments are classified according to the Standard Industrial Classification (SIC) system in most sources. Developed by the U.S. Office of Management and Budget, the system is described in the *Standard Industrial Classification Manual* which was published in updated form in 1987. The *Manual* defines an establishment as "an economic unit generally at a single physical location where business is conducted, or where services or industrial operations are performed." An establishment is not necessarily identical with an enterprise or company which may consist of more than one establishment. Both profit-making and not-for-profit organizations are included as well as agencies of the federal, state, and local governments. Major industry divisions are assigned two-digit codes: 01 through 99; subdivisions are classified by three- and four-digit codes. (See the Glossary, "Industrial Classification System, Standard," for more discussion.)

The last division of the *Abstract* contains tables of a comparative nature: economic and social trends. Time series showing the fluctuations of such major economic indicators as prices and employment are included in Section 24.00. Selected statistics of the economic, social, and physical environments of Florida, other Sunbelt and populous states comprise Section 25.00.

Fiscal years. Since 1976 the federal fiscal year has extended from October 1 of one year through September 30 of the next. The fiscal year of the State of Florida is July 1 through June 30. Since 1973, local governments in Florida with the exception of some special districts, have had a fiscal year from October 1 through September 30. If a reporting organization has a different fiscal year, the months are included in the table or noted.

Changes in this edition. Employment tables presenting ES-202 data from the Bureau of Labor Market Information, Department of Labor and Employment Security, State of Florida, no longer provide employment ranges. (See discussion of "covered employment" under Appendix, Section 6.00.) New tables present data on lottery sales and revenue appropriated for education, alcohol-related traffic accidents, the 1987 Census of Agriculture and 1987 Economic Censuses. Many tables are revised and reflect new data items. Most changes relating to specific tables and sources are discussed in notes to the tables or in the Appendix.

***Abstract* diskettes**. *Abstract* tables are available on microcomputer diskette. To order diskettes please contact the Bureau of Economic and Business Research, 221 Matherly Hall, Gainesville, Florida, 32611-2017, (904) 392-0171.

Bureau of Economic and Business Research. The Bureau's activities are organized around four research programs: forecasting, population, survey, and local government studies. Bureau staff is comprised of four research economists, one survey research specialist, nine research associates, six publications/information and six clerical personnel, and eighteen graduate and student assistants.

Acknowledgements. The preparation of this edition of the *Abstract* was shared by many members of the Bureau but the key personnel were Susan Floyd, Laurie Rayburn, and Dorothy Evans. As managing editor, Susan Floyd was the project manager and patiently kept the team on schedule. She collected data sources, reviewed them for changes in series and methods, supervised table compilations and worked on the Index. Laurie Rayburn, production supervisor, administered the computer network, set up tables and computations and supervised student assistants. Dorothy Evans, word processing specialist, transferred tables into word processing and completed final page formats. Susan, Laurie and Dorothy evaluated procedures and software in the continuing effort to improve production efficiency and quality control. Laurie delayed her move in order to keep *Abstract* on schedule and we regret losing so valuable a member of the team. Wendy Glasser was welcomed in September as the new production supervisor and assisted with final preparations of the volume.

Theresa Loper and student assistants Kim Harju and Stacie Schilling entered data, worked on the Index and checked for errors. Their careful work caught problems with primary sources as well as *Abstract* tables. Student assistant Astra Ciudad-Real worked on the Index and proofed. Robyn Richards entered data and typed the *Abstract Style Manual*. Carol McLarty helped update the Census Index, Index, and proofed. Janet Galvez down-loaded data from the BEBR Data Base and several other sources. Tony Isaacs provided programming and "troubleshooting" support. Ravi Bayya supplied data from the BEBR Population Program and Raymond Major supplied data from the Florida Consumer Attitude Survey. Ann Pierce advised on the cover and Leslie Bogart prepared the cover graphics. The clerical staff provided assistance with promotional mailings. The University Presses of Florida coordinated the printing and handles distribution.

Jan Coyne, cartographer for the Geography Department, prepared the maps and section divider graphics. These were adapted from the *Florida Graphic Atlas*, a companion publication to the *Abstract* and prepared under the editorship of Dr. John Dunkle. Please call the Geography Department Cartographic Laboratory at (904) 392-0494 to order the *Atlas* or obtain information about it.

We thank the readers who found some inconsistencies in last year's Index and we have adopted new procedures and software for preparing the Index this year. We are always pleased to continue to receive suggestions for improving the coverage and presentation of data in the *Florida Statistical Abstract*.

(X) Not applicable.

1/ Figures have been adjusted to constitute a substantially consistent series based on incorporated places of 2,500 or more persons with additional areas defined as urban under special rules.

2/ The current urban definition defines the urban population as all persons living in urbanized areas and in places of 2,500 or more persons outside urbanized areas. An urbanized area comprises an incorporated place and adjacent densely settled surrounding area that together have a minimum population of 50,000. Population not classified as urban constitutes the rural population. Rural classification need not imply farm residence or a sparsely settled area because a small city is rural as long as it is outside an urbanized area and has fewer than 2,500 persons.

Note: Extreme caution should be used when deriving annual percentage changes from these estimates. See Appendix. 1980 census counts include all adjustments through November 30, 1989, made to the numbers originally published by the U.S. Bureau of the Census. Therefore, 1980 census numbers for some counties may differ from those published previously in *Abstract*.

1/ "Black" reflects the self-identification of respondents in the 1980 census.

Note: Due to adjustments made by the U.S. Bureau of the Census, the 1980 race data are different from those published in earlier *Abstracts*. See Table 1.35 for county breakdown of 1988 estimates by sex and age group.

Correction: In the 1989 *Abstract*, figures for 1980 black male and black female populations were reversed.

Source: University of Florida, Bureau of Economic and Business Research, Population Program, *Population Studies*, June 1990, Volume 23, No. 3-4. Bulletin No. 93-94.

High		17.5	20.2	22.5	25.0	27.3	32.3

Note: State projections are based on three different sets of assumptions regarding annual net migration. The high projections are similar to the large migration levels of the first half of the 1970s when more people were migrating to Florida than ever before. The low migration levels are similar to those between 1975 and 1977 when Florida population growth rates were among the lowest since World War II. The medium assumptions imply annual net migration levels similar to the average in the 1970s and 1980s. County projections are based on an average of projections derived from nine different techniques. For the medium series, the sum of the county projections equals the state projection for each year (except for slight differences due to rounding). For the high and low series, however, the sums of the county projections do not equal the state projections. The 1989 estimates have been used as the base from which to generate these projections. For a more detailed discussion of methodology, see the source.

1/ Vacant units intended for seasonal occupancy or held for migratory labor. If such units are occupied by persons who have a usual residence elsewhere, they are classified as vacant.

2/ All occupied units plus vacant units intended for year-round use.

3/ Units occupied as the usual place of residence of one person or groups of persons. Because a household consists of all persons who occupy a housing unit, the count of occupied units and households is identical.

Table 2.08. HOUSING UNITS: SPECIFIED CHARACTERISTICS OF THE HOUSING INVENTORY IN THE MIAMI-FT. LAUDERDALE METROPOLITAN STATISTICAL AREA (MSA), 1986, AND TAMPA-ST.PETERSBURG MSA, 1985

(in thousands)

Unit characteristics	Miami-Ft. Lauderdale	Tampa-St. Petersburg
Housing units, total	1,405.9	971.9
Seasonal	42.8	44.0
Year-round	1,363.1	927.9
Owner-occupied	721.9	550.3
Renter-occupied	434.0	234.7
Vacant	207.3	142.9
For rent	66.3	49.6
For sale	28.4	25.4
Mobile home	33.2	119.6
Units in structure		
1, detached	572.9	552.0
1, attached	112.1	35.9
2 to 4	122.2	82.8
5 to 9	72.4	56.0
10 to 19	91.2	50.3
20 to 49	170.8	37.8
50 or more	231.0	37.6
Year structure built		
1985 to 1989	52.5	30.9
1980 to 1984	134.0	134.5
1975 to 1979	253.2	213.2
1970 to 1974	266.5	190.7
1960 to 1969	303.8	194.1
1950 to 1959	234.0	118.9
1940 to 1949	86.9	43.1
1939 or earlier	74.9	46.4
Median year built	1970	1972
Collective ownership		
Cooperatives	17.0	10.4
Condominiums	344.4	102.7
Number of rooms		
1 to 2	63.0	17.9
3 to 4	620.4	359.6
5 to 6	470.7	436.2
7 to 8	221.9	136.8
9 or more	30.0	21.5
Median number of rooms	4.6	4.9
Median number of bedrooms	2.1	2.2
Size of unit (square feet)		
Less than 500	10.3	20.9
500 to 749	21.8	51.7
750 to 999	37.1	89.1
1,000 to 1,499	175.1	241.7

See footnotes at end of table.

Table 2.08. HOUSING UNITS: SPECIFIPD CHARACTERISTICS OF THE HOUSING INVENTORY IN THE MIAMI-FT. LAUDERDALE METROPOLITAN STATISTICAL AREA (MSA), 1986, AND TAMPA-ST.PETERSBURG MSA, 1985 (Continued)

(in thousands)

Unit characteristics	Miami-Ft. Lauderdale	Tampa-St. Petersburg
Size of unit (square feet) (Continued)		
1,500 to 1,999	143.6	129.5
2,000 to 2,499	76.6	63.2
2,500 to 2,999	29.4	24.5
3,000 or more	65.3	18.4
Median size of unit	1,623	1,327
Lot size (acres)		
Less than 1/8	68.1	76.1
1/8 up to 1/4	269.8	219.2
1/4 up to 1/2	85.8	89.4
1/2 up to 1	24.2	29.5
1 or more	17.8	53.5
Median lot size	0.20	0.22
Description of neighborhood 1/		
Single-family detached houses	747.4	678.1
Single-family attached or 1 to 3 story multiunit	605.5	300.2
4 to 6 story multiunit	221.0	34.0
7 stories or more multiunit	125.4	17.9
Mobile homes	38.6	148.2
Residential parking lots	148.1	138.9
Commercial, institutional, or industrial	257.7	124.0
Body of water	146.9	132.3
Open space, park, woods, farm, or ranch	104.8	224.0
4+ lane highway, railroad, or airport	85.5	(NA)
Monthly housing costs 2/		
Less than $200	141.2	209.8
$200 to $299	152.5	133.1
$300 to $399	176.7	137.4
$400 to $499	170.8	108.7
$500 to $599	152.7	72.0
$600 to $699	94.9	37.8
$700 to $799	67.7	24.1
$800 to $999	95.4	26.8
$1,000 to $1,249	31.6	11.2
$1,250 or more	44.3	19.2
No cash rent	17.9	12.1
Median monthly costs (dollars) 3/	451	337
Value of owner housing units 4/		
Less than $10,000	17.5	19.2
$10,000 to $19,999	12.3	32.9
$20,000 to $29,999	19.7	34.1
$30,000 to $39,999	42.1	61.7
$40,000 to $49,999	75.8	96.8

(NA) Not available.

1/ Population figures for noncensus years are mid-year estimates. 1985-86 through 1988-89 population breakdowns are for aged 15-24.

2/ Membership data prior to 1973-74 based on average daily membership; data for 1973-74 to present are based on fall membership survey.

3/ Regular day school only; excludes state/university schools and adult programs.

4/ Includes teachers and other instructional personnel.

5/ Per pupil expense through 1973-74 based on average daily attendance; 1974-75 through present, on full-time equivalent student count.

Note: Data were obtained from the 1989 fall student survey, ESE 269. Because some high schools do not have a formal follow-up program for graduates, it was necessary for the principal or guidance couselor to prepare estimates for some of the items included. Figures include twelfth grade graduates from adult centers and exceptional and gifted schools.

1/ In hundred million dollars.

Note: Disposable personal income is equal to total personal income less personal tax and nontax payments. Personal taxes are tax payments by persons (except personal contributions to social insurance) and include income, estate and gift, and personal property taxes. Nontaxes include passport fees, fines and penalties, donations, and tuitions and fees paid to government schools and hospitals. 1983 through 1988 data are revised; 1989 data are preliminary.

1/ Includes supplemental security income payments, payments to families with dependent children (AFDC), general assistance payments, food stamp payments, and other assistance payments, including emergency assistance.

Note: These data were derived by dividing each type of income by the total population of the area, not just the segment of the population receiving that particular type of income. Per capita is computed using Bureau of Economic and Business Research *Estimates of Population* for 1987 and 1988.

Source: U.S., Department of Commerce, Bureau of Economic Analysis, unpublished data.

1/ Consists of wage and salary disbursements, other labor income, and proprietors' income.

2/ An estimate of the net gain or loss to an area because of commuting from place of residence to place of work. Some persons earn income in the area in which they live; others earn income outside that area.

Note: Data are for Metropolitan Statistical Areas (MSAs) and Primary Metropolitan Statistical Areas (PMSAs) defined as of June 30, 1988. See Glossary for definitions and map at the front of the book for area boundaries.

A/ Revised.

1/ Consists of wage and salary disbursements, other labor income, and proprietors' income.

2/ An estimate of the net gain or loss to an area because of commuting from place of residence to place of work. Some persons earn income in the area in which they live; others earn income outside that area.

Source: U.S., Department of Commerce, Bureau of Economic Analysis, unpublished data.

Table 5.46. POVERTY THRESHOLDS: AVERAGE POVERTY THRESHOLDS FOR A FAMILY OF FOUR AND THE ANNUAL CONSUMER PRICE INDEX IN THE UNITED STATES, 1977 THROUGH 1988

Year	Average threshold (dollars)	Consumer Price Index (1982-84=100)	Year	Average threshold (dollars)	Consumer Price Index (1982-84=100)
1977	6,191	60.6	1983	10,178	99.6
1978	6,662	65.2	1984	10,609	103.9
1979	7,412	72.6	1985	10,989	107.6
1980	8,414	82.4	1986	11,203	109.6
1981	9,287	90.9	1987	11,611	113.6
1982	9,862	96.5	1988	12,092	118.3

Note: Poverty thresholds are based on a definition developed by the Social Security Administration in 1964 and revised by a federal interagency committee in 1969 and 1980. Annual adjustments are based on changes in the Consumer Price Index (CPI). The poverty index is based on money income and does not take into account noncash benefits, such as food stamps, medicaid, and public housing. Differences in poverty thresholds based on farm-nonfarm residence have been eliminated. Nonfarm thresholds now apply to all families. For years prior to 1981, average threshold for a nonfarm family of four is shown. Poverty thresholds for 1987 and 1988 are based on revised processing procedures and are directly comparable with prior years.

1/ The figure which divides the distribution of all household or family incomes into two equal groups, one-half below the median and one-half above.

2/ Includes the income received by all household members 15 years old or over, regardless of family relationship, and by persons living alone or in other nonfamily households.

3/ Includes the total money income received in a calendar year by all family members 15 years old and over.

Table 7.59. WORKERS' COMPENSATION: ESTIMATES OF PAYMENTS BY TYPE OF INSURANCE IN FLORIDA, 1985 THROUGH 1987

(in thousands of dollars)

Item	1985	1986	1987 A/
Total	814,546	978,996	1,178,113
Insurance losses paid by private insurance carriers 1/	560,982	638,996	738,113
State and federal fund disbursements 2/	0	0	0
Self-insurance payments 3/	253,564	340,000	440,000
Percentage change in total payments from previous year	18.9	20.2	20.3

A/ Preliminary.

1/ Net cash and medical benefits paid during the calendar year by private insurance carriers under standard workers' compensation policies. Data primarily from A.M. Best Company.

2/ Net cash and medical benefits paid by state funds compiled from state reports (published and unpublished).

3/ Cash and medical benefits paid by self-insurers, plus the value of medical benefits paid by employers carrying workers' compensation policies that do not include standard medical coverage. Estimated from available state data.

A/ Sea level.

1/ Dry land and land temporarily or partially covered by water, as marshland, swamps, etc.; streams and canals under one-eighth statute mile wide; and lakes, reservoirs, and ponds under 40 acres of area.

2/ Permanent inland water surface, other than included in footnote 1/. Excludes areas of oceans, bays, sounds, etc. not defined as inland waters.

3/ Figures are lengths of general outline of seacoast. Unit of measure is 30 minutes of latitude on charts at approximate scale of 1:1,200,000.

4/ Figures are lengths of shoreline of outer coast, offshore islands, sounds, bays, rivers, and creeks to the head of tidewater, and were obtained in 1939-40.

Domestic, self-supplied	165.00	202.98	250.88	259.29
Commercial/industrial, self-supplied	926.80	939.61	781.33	708.81
Agricultural irrigation	2,348.92	2,879.63	3,056.90	2,979.30
Power generation, self-supplied 2/	1,686.90	1,695.54	1,847.83	651.45

1/ Public supply refers to municipal or other water utility which serves the public.

2/ Over ninety percent of power generation withdrawals are saline water.

UG/M^3 Micrograms per cubic meter.

1/ Source includes more sites than could be reported here. Major cities in each county are reported. If more than one site was available, the one with the highest annual geometric mean is reported.

2/ Florida standard is 150 UG/M^3, not to be exceeded more than once per year.

3/ Florida standard is 60 UG/M^3.

Note: Particulate describes airborne solid or liquid particles of about 0.1 to 50 microns in diameter (1 micron = 0.0001 centimeter). PM consists of sulfate, nitrate, and acidic particles formed by oxidation of the pollutant gases sulfur dioxide and nitrogen dioxide; of soot and organic particles released in forest fires and other low-temperature combustion processes; of lead-containing particles emitted from motor vehicles; of products of industrial processes and high temperature fuel combustion; of local soil; and of airborne sea salt.

1/ The Agricultural Stabilization and Conservation Service defines a farm as a place producing agricultural commodities for commercial sale. The number of farms of record is estimated in cooperation with county agents.

2/ Data from 1980 Census.

3/ Does not include public lands, urban areas, large bodies of water, highways, etc.

4/ Includes established and improved pasture.

5/ Native grasses. Excludes established and improved pasture.

6/ Includes program payments and loans.

7/ Program payments include $218,275,451 in sugar loans. Interest of $8,131,898 was collected on the sugar loans.

Source: U.S., Department of Agriculture, Agricultural Stabilization and Conservation Service, unpublished data.

Table 9.32. AGRICULTURAL LOANS: AMOUNT OUTSTANDING OF REAL ESTATE AND PERSONAL AND COLLATERAL LOANS OF ALL OPERATING BANKS IN FLORIDA AND THE UNITED STATES DECEMBER 31, 1986, 1987, AND 1988

(rounded to thousands of dollars)

Item	1986	1987 A/	1988 B/
Florida	755,127	803,314	903,720
Farm real estate loans	406,786	489,799	578,720
Non-real estate farm loans	348,341	313,515	325,010
United States	43,950,983	43,496,001	45,215,355
Farm real estate loans	12,710,650	14,455,162	15,416,700
Non-real estate farm loans	31,240,333	29,040,839	29,798,655

A/ Revised.

B/ Preliminary.

Note: Includes operator households. Includes loans of national and commercial mutual savings, stock savings, and private banks. Loans are classified according to location of bank and, there-fore, are not strictly comparable with data for other lenders which are classified according to location of borrower.

Table 9.33. AGRICULTURAL LOANS: FARM REAL ESTATE DEBT OUTSTANDING BY LENDER IN FLORIDA AND THE UNITED STATES, DECEMBER 31, 1987 AND 1988

(in thousands of dollars)

Lender group	Florida		United States	
	1987	1988	1987	1988
Total	2,614,918	2,650,370	87,717,601	82,952,519
Federal land banks 1/	1,003,173	913,021	32,637,684	30,326,707
Life insurance companies 2/	581,900	674,900	9,895,800	9,581,700
Farmers Home Administration 3/	134,652	129,564	10,083,239	9,606,796
All banks	489,799	578,720	14,455,162	15,416,700
Individuals and others 4/	405,394	354,165	20,645,716	18,020,616

1/ Includes mortgages in process of foreclosure.

2/ Includes U.S. legal reserve companies only. Includes regular mortgages and purchase-money mortgages.

3/ Includes farm ownership loans, soil and water loans to individuals, rural and labor housing loans on farms and association loans for grazing, and for Indian tribe land acquisition.

4/ Estimated by Economic Research System, U.S. Department of Agriculture.

Note: Some 1987 data are revised. 1988 data are preliminary.

A/ Less than 0.005 percent.

1/ Land currently used for agricultural, forestry, or timber production or, if idle, land used for such purposes within the last five years.

2/ A foreign investor is defined as any nonresident alien, any corporation incorporated outside the U.S., or any U.S. corporation with 5 percent or more foreign interest. A foreign investor holding more than 5 percent or more interest in any agricultural lands must disclose such holdings.

Note: Data were compiled by the U.S. Department of Agriculture, Agricultural Stabilization and Conservation Service from disclosure forms filed under the Agriculture Foreign Investment Disclosure Act of 1978. Detail may not add to total because of rounding.

A/ Preliminary.

1/ Includes early, midseason, and late type (Valencia) oranges.

Note: Charges for picking, hauling, and packing are deducted from the weighted average of prices obtained from all segments of the citrus industry to arrive at the final on-tree price received by producers. Some historical data have been revised. United States data include Arizona, California, Florida, and Texas.

(X) Not applicable.

A/ Decreased by less than one percent.

B/ Data not comparable to previous years due to changes in data collection methods.

1/ Includes glass and plastic containers and cartons.

Note: Data for 1976-1986 come from an audit of 1,300 food stores throughout the United States and relate to the retail market only. Data for 1987-89 come from scanner supermarkets doing over $4 million in retail sales annually. Sales from these stores are estimated to represent 76 percent of total retail sales.

Walton	13,126	7,849	5,277	209

1/ Based on whole weight of species with some exceptions, e.g., stone crabs, sponges. Recorded in county of first sale to dealer.

2/ Includes clams, conch, crabs, lobster, octopus, oysters, scallops, shrimp, sponges, and squid.

3/ Only successful trips of fishermen.

4/ Landings from seafood dealers residing in inland counties or out-of-state who bought Florida produced seafood.

Note: Data are preliminary.

Source: State of Florida, Department of Natural Resources, Marine Fisheries Information System, unpublished data.

Table 10.71. FORESTRY AND FISHING INDUSTRIES: AVERAGE MONTHLY REPORTING UNITS EMPLOYMENT, AND PAYROLL COVERED BY UNEMPLOYMENT COMPENSATION LAW BY INDUSTRY IN FLORIDA, 1989

149	Miscellaneous nonmetallic minerals, except fuels	38	382	664

(D) Data withheld to avoid disclosure of information about individual firms.

Note: SIC classifications were revised in 1987. See Preface and Glossary. State totals on county employment tables may not match totals in this table due to rounding.

Source for Tables 10.71 and 10.72: State of Florida, Department of Labor and Employment Security, Bureau of Labor Market Information, "Employment, Wages, and Contributions Report" (ES-202), unpublished data.

Table 10.80. NONFUEL MINERAL PRODUCTION: QUANTITY AND VALUE IN FLORIDA, 1986 THROUGH 1988

(quantity in thousands of short tons; value in thousands of dollars)

Mineral		1986 Quantity	1986 Value	1987 A/ Quantity	1987 A/ Value	1988 Quantity	1988 Value
Total		(X)	1,289,863	(X)	1,346,237	(X)	1,391,881
Cement:	Masonry	352	21,269	390	24,069	411	25,892
	Portland	3,189	147,643	3,565	165,944	3,682	168,719
Clays		726	43,261	597	39,496	592	44,423
Peat		365	5,743	363	6,068	266	5,091
Sand and gravel:	Construction	28,233	67,898	30,000	74,900	18,654	53,083
	Industrial	1,467	14,930	1,884	19,713	636	6,928
Stone (crushed)		69,000	288,200	78,992	350,537	83,200	374,400
Combined value of gem stones, lime (1986), magnesium compounds (1988), phosphate rock, rare-earth metal concentrates, staurolite, stone (crushed marl, 1987-88), titanium concentrates, (ilmenite and rutile), and zircon concentrates		(X)	700,919	(X)	665,510	(X)	713,345

(X) Not applicable.

A/ Revised.

Note: Production as measured by mine shipments, sales, or marketable production (including consumption by producers). Some data are estimated. Crushed stone excludes certain stones in 1987 and 1988, which are included with "Combined value" data.

Table 10.81. NONFUEL MINERAL PRODUCTION: VALUE OF PRODUCTION IN FLORIDA, MAJOR MINERAL PRODUCING STATES, AND THE UNITED STATES, 1988

State	Value			Per square mile		Per capita	
	Amount ($1,000)	Percentage of United States	Rank	Amount (dollars)	Rank	Amount (dollars)	Rank
Florida	1,391,881	4.64	6	23,726	5	113	18

(X) Not applicable.

(NA) Not available.

A/ Prior to 1989 Marion County did not report multifamily housing unit data for structures with 3 or more units.

1/ Includes Hacienda Village as of January 1985.

2/ Included in unincorporated as of September 1988.

3/ Escambia County unincorporated is Pensacola Beach.

4/ Included in unincorporated as of February 1989.

5/ Unincorporated Liberty County does not report issued permits.

6/ Included in unincorporated as of March 1988.

7/ Included in unincorporated as of July 1988.

Note: Data include activity reported by April 1990. Only areas which issue permits are listed. County totals are aggregates of reports received. Data for 1988 are revised and for 1989 are preliminary.

(NA) Not available.

1/ Includes single family, multi-family, and mobile homes; motels, hotels, rooming houses, and other nonhousekeeping residential buildings.

2/ Includes offices, stores, schools, industrial, and institutional buildings and other nonresidential structures.

Note: Data include activity reported by April 1990. Figures are aggregates of value on monthly reports received from permit-issuing places. See Table 11.15 for a record of the number of reports received and for changes in permit-issuing status. A value of (0) thousand dollars indicates the value was between 0 and 500 dollars.

A/ Preliminary.
1/ States with 1989 shipments of 2,000 or more are listed.

Note: Shipments figures are based on reports submitted by manufacturers on the number of mobile homes actually shipped during the survey month. Shipments to dealers may not be placed for residential uses in the month as they are shipped. The number of mobile "homes" used for nonresidential purposes is not known. These shipments statistics are produced by the National Conference of States on Building Codes and Standards, Inc. See Glossary for definition of mobile home.

(NA) Not available.

1/ Data for the years 1972, 1977, and 1982 are from the Census of Manufactures. Data for Annual Survey of Manufactures (ASM) years are estimates based on a representative sample of establishments canvassed annually and may differ from results of a complete canvas of all establishments.

2/ Includes establishments with payroll at any time during the year.

3/ Uniform instructions for reporting inventories were introduced with the 1982 census. Therefore, data for 1982 and later years are not comparable to prior years.

4/ Consists of Dade and Broward counties.

5/ Consists of Hillsborough, Pasco, and Pinellas counties.

Note: Data are reported for SCSAs and SMSAs with 40,000 manufacturing employees or more in 1982.

Source: U.S., Department of Commerce, Bureau of the Census, *1986 Annual Survey of Manufactures*, M86(AS)-3.

State-administered highways	143,125	155,896	177,599
Local rural roads	245,958	311,950	309,735
Local municipal streets	182,067	201,950	218,252
Federal roads and unclassified	2,651	2,583	2,722
Administration and miscellaneous	103,287	144,694	107,230
Highway police and safety	209,260	219,534	238,386
Bond interest	103,567	109,222	141,942

1/ Excludes short-term notes and refunding bond issues.

2/ Excludes amounts allocated for collection expenses and nonhighway purposes. Revenues are segregated according to the collecting agency. Amounts shown for federal agencies are mostly grants-in-aid payments.

3/ Disbursements are classified by system on which expended, rather than by expending agencies; capital outlay on county and other local rural roads includes expenditure from federal, state, and local funds.

4/ Summary of right-of-way costs which are included in local, state, and federal categories.

Note: This table presents combined summaries of the highway finances of all government agencies in net amounts; duplications that would otherwise have resulted from interfund or intergovernmental transfers have been removed. Data may include estimates.

Source: U.S., Department of Transportation, Federal Highway Administration, *Highway Statistics, 1988*, and previous editions.

Table 13.21. HIGHWAY BRIDGES: COUNT OF BRIDGES BY FUNCTIONAL SYSTEM IN FLORIDA AND THE UNITED STATES, 1987 AND 1988

Functional system	Florida 1987	Florida 1988	United States 1987	United States 1988
Total	10,191	10,229	575,945	576,702
Rural	6,079	5,861	458,740	460,624
Interstate	818	709	28,811	28,869
Other principal arterial	1,107	1,186	32,253	33,021
Minor arterial	1,009	893	41,670	40,558
Major collector	495	625	1,981	3,746
Minor collector	687	641	50,046	50,002
Local	1,963	1,807	203,979	204,428
Urban	4,110	4,367	98,868	103,164
Interstate	838	874	22,588	23,200
Other freeways and expressways	311	348	10,357	10,306
Other principal arterial	1,042	1,136	20,135	20,789
Minor arterial	447	513	17,757	18,234
Collector	351	385	11,083	11,596
Local	1,121	1,111	16,948	19,039
Unclassified	2	1	18,337	12,914

Note: Because functional system has been estimated or assigned in some cases, data may not be precise.

Table 13.22. HIGHWAY SPEED: AVERAGE AND MEDIAN SPEED BY FUNCTIONAL SYSTEM OF HIGHWAY IN FLORIDA, FISCAL YEAR 1987-88

Functional system of highway	Miles per hour Average	Miles per hour Median 1/	Miles per hour 85th percentile 2/	Percentage exceeding-- 55 miles per hour	Percentage exceeding-- 60 miles per hour	Percentage exceeding-- 65 miles per hour
Statewide	57.8	57.3	64.4	64.0	35.2	12.9
Urban						
Interstate	59.6	59.2	66.2	74.3	45.1	18.0
Other principal and minor arterials	55.1	54.7	62.3	48.2	21.9	6.7
Rural						
Interstate	60.8	60.5	65.4	86.9	53.9	15.9
Other principal and minor arterials	58.4	57.9	64.7	67.8	37.0	13.8
Major collectors	54.5	53.7	61.9	43.1	20.2	6.6

1/ Median speed is the speed at or below which 50 percent of the vehicles are traveling.

2/ 85th percentile speed is the speed at or below which 85 percent of the vehicles are traveling.

Note: Data reflect speeds of all vehicles on sections of roads posted for 55 miles-per-hour speed limits and are based on an annual classification of speed limit enforcement required annually from each highway agency.

Unknown county 1/	44,091	9,335
Out-of-state 2/	55,909	31,187

1/ Licenses mailed to addresses which do not permit specification of county. Also includes licenses with incorrect or unknown zip codes.

2/ Licenses mailed to out-of-state addresses.

Note: Data are essentially an inventory of current licenses as of January 1, 1990 according to the records of the Florida Department of Highway Safety and Motor Vehicles. Figures include restricted, operator, and chauffeur licenses. Figures do not include licenses that are expired but renewable (less than one year).

Source: State of Florida, Department of Highway Safety and Motor Vehicles, Division of Administrative Services, unpublished data.

Table 13.36. TRANSPORTATION: AVERAGE MONTHLY REPORTING UNITS, EMPLOYMENT, AND PAYROLL COVERED BY UNEMPLOYMENT COMPENSATION LAW BY INDUSTRY IN FLORIDA
1989

SIC code	Industry	Number of reporting units	Number of employees	Payroll ($1,000)
40	Railroad transportation	1	(D)	(D)
41	Local and suburban transit and interurban highway passenger transportation	644	11,854	15,678
411	Local and suburban passenger transportation	282	6,828	9,783
412	Taxicabs	113	1,465	1,716
413	Intercity and rural bus transportation	19	833	1,355

1/ The number of deaths per 100 million vehicle miles traveled.

Note: Includes reports and information received by June 2, 1989. Legally reportable accidents are those involving death, bodily injury, or one or more of the following circumstances: (1) driver leaves the accident scene where death, injury, or property damage has occurred; (2) driver is under the influence of alcohol or drugs; and, (3) a wrecker is required to remove an inoperative vehicle.

Table 13.46. REPORTED MOTOR VEHICLE ACCIDENTS: NUMBER OF ACCIDENTS BY CONTRIBUTING CAUSE IN FLORIDA, 1988

Cause of accident	Total		Urban		Rural	
	Number	Percentage of total	Number	Percentage of total	Number	Percentage of total
Total	395,061	100.0	232,286	100.0	162,775	100.0
Speed too fast	6,705	1.7	3,363	1.4	3,342	2.1
Failed to yield right of way	46,790	11.8	28,798	12.4	17,992	11.1
Disregarded stop sign	3,994	1.0	2,887	1.2	1,107	0.7
Disregarded other traffic condition	8,732	2.2	6,697	2.9	2,035	1.3
Drove left of center	1,648	0.4	655	0.3	993	0.6
Improper overtaking	6,204	1.6	3,315	1.4	2,889	1.8
Followed too closely	5,064	1.3	3,694	1.6	1,370	0.8
Alcohol, under influence	4,394	1.1	2,346	1.0	2,048	1.3
Careless driving	71,339	18.1	35,158	15.1	36,181	22.2
Mechanical defect	2,569	0.7	1,382	0.6	1,187	0.7
Other	237,622	60.1	143,991	62.0	93,631	57.5

Note: Detail may not add to totals because some accidents may have more than one contributing cause. Legally reportable accidents are those involving death, bodily injury, or one or more of the following circumstances: (1) driver leaves the accident scene where death, injury, or property damage has occurred; (2) driver is under the influence of alcohol or drugs; and, (3) a wrecker is required to remove an inoperative vehicle.

(NA) Not available.

Note: Data include reports and information received by June 2, 1989. Legally reportable accidents are those involving death, bodily injury, or one or more of the following circumstances: (1) leaving the accident scene when death, injury, or property damage has occurred; (2) driving under the influence of alcohol or drugs; and, (3) a wrecker is required to remove an inoperative vehicle. Totals include accidents for which the county of occurrence is unknown.

Imports	61,432
Domestic	51,495
Pensacola (fiscal year 1988-89)	
Total	816,378
Exports	663,947
Imports	152,431
Tampa (fiscal year 1988-89)	
Total	54,038,531
Exports	16,495,430
Imports	13,263,956
Domestic	24,279,145

1/ These data represent tonnage which passes through facilities owned by the Jacksonville Port Authority only; therefore they are less than similar figures for all movements into and out from the Port of Jacksonville.

Source: Data are reported in annual or cumulative monthly reports of each port authority (Canaveral, Everglades, Ft. Pierce, Jacksonville, Manatee County, Miami, Palm Beach, Panama City, Pensacola, and Tampa) and are presented here with the description and breakdown used in the individual reports.

1/ An aircraft arrival at or departure from an airport with FAA traffic control.

2/ Air carrier authorized by the Civil Aeronautics Board to provide scheduled service over specified routes with limited nonscheduled operations.

3/ Performs at least five round trips per week between two or more points and publishes flight schedules or transports mail.

4/ All operations not classified as an air carrier, air taxi, or military.

Note: Itinerant includes all aircraft arrivals and departures other than local. Local includes aircraft operations which operate in the local traffic pattern or within sight of the tower.

NEC Not elsewhere classified.

Note: Newspaper publishing and other print media (SIC code 27) are considered to be manufacturing in the Standard Industrial Classification system. Data are included here because newspapers do compete with the electronic media in providing communications. Caution should be used when making comparisons with data published in previous *Abstracts*, due to 1987 SIC coding changes for some industries. State totals on county employment tables may not match totals in this table due to rounding.

Source: State of Florida, Department of Labor and Employment Security, Bureau of Labor Market Information, "Employment, Wages, and Contributions Report" (ES-202), unpublished data.

1985	234.1	110.8	26.8	41.5	22.3	32.7
1986	231.1	122.3	25.4	39.1	20.3	24.0
1987	234.2	114.2	25.8	48.3	16.7	29.2
1988	238.9	118.8	24.5	48.9	22.6	24.2

1/ Includes asphalt, aviation gasoline, jet fuel, distillates, kerosene, lubricants, motor gasoline, residual fuel, and liquefied petroleum gas.

2/ Includes renewables and imports/exports of electricity.

Note: Data are revised; therefore, numbers will differ from those previously reported in *Abstract*.

Table 15.08. ENERGY CONSUMPTION: CONSUMPTION OF RENEWABLE ENERGY BY TYPE IN FLORIDA, 1983 THROUGH 1988

(in trillions of British thermal units)

Type of energy	1983	1984	1985	1986	1987	1988
Total	129.1	140.7	143.8	147.0	158.4	155.3
Direct solar	1.9	2.3	3.4	3.7	4.3	4.5
Indirect solar	125.9	136.7	139.6	143.3	153.9	150.7
Biomass energy, total	123.6	134.5	137.1	141.1	151.7	148.6
Wood	96.0	103.1	106.7	113.2	117.7	116.8
Pulp and paper industry	82.6	89.4	92.6	97.7	100.8	100.2
Residential	13.5	13.7	14.1	14.3	14.7	15.2
Electric utility	0.0	0.0	0.0	1.2	2.2	1.4
Crop residues	12.3	13.1	13.3	13.3	13.8	13.8
Alcohol fuels	3.0	4.3	4.9	2.8	1.1	0.6
Municipal solid waste	12.3	14.0	12.2	11.8	19.1	17.4
Hydroelectric energy	2.3	2.2	2.5	2.2	2.2	2.1

Note: Consumption of renewable energy in Florida from wind systems and animal waste is negligible (greater than 0 but less than 0.05 trillion British thermal units) and consumption of geothermal energy is significant, but impossible to measure. Therefore, these data are not included in this table. Detail may not add to totals because of rounding. Some data are revised.

Table 15.09. CRUDE OIL AND NATURAL GAS: AMOUNT PRODUCED BY FIELD IN FLORIDA, 1986 THROUGH 1988

Field	Crude oil (barrels)			Natural gas (1,000 cubic feet)

Investor-owned					
Florida Power	947	2,487	8,367	20,391	40,704
Florida Power and Light	1,136	2,994	9,651	23,583	47,166
Florida Public Utilities					
Fernandina Beach division	1,203	3,400	11,246	29,336	58,634
Marianna division	812	2,220	7,319	18,811	37,587
Gulf Power 1/	916	2,226	7,613	18,133	36,215
Tampa Electric	1,175	2,948	9,745	23,812	47,454

KWH Kilowatt-hour.

A/ Actual demand charge is based on kilovolt-ampere (KVA). An equivalent demand charge based on kilowatts under the assumption of a 90 percent power factor at peak demand was used in this comparison.

1/ Summer/winter rates in effect. Winter rates are shown.

Note: Cost excludes local taxes. December 1989 fuel costs are included for municipal and cooperative utilities. October 1989 through March 1990 fuel costs are included for investor-owned utilities.

Table 15.42. NATURAL GAS: PRODUCTION, MOVEMENT, AND CONSUMPTION IN FLORIDA AND THE UNITED STATES, 1987 AND 1988

(quantity in millions of cubic feet)

Item	Florida		United States	
	1987	1988	1987	1988
Marketed production 1/	8,281	7,484	17,348,537	17,808,313
Net interstate movements	307,790	290,940	0	0
Net movements across U.S. borders	0	0	938,302	1,219,590
Net storage changes 2/	0	0	6,070	-58,734
Extraction loss	3,884	3,584	812,320	815,844
Supplemental gas supplies	0	0	101,382	101,134
Unaccounted for 3/	11,848	1,407	432,893	344,356
Consumption, total	300,339	293,433	17,210,809	18,027,572
Delivered to consumers	288,317	282,792	15,542,256	16,318,984
Lease and plant fuel	7,563	7,275	1,149,383	1,094,676
Pipeline fuel	4,459	3,366	519,170	613,912

1/ Gross withdrawals from gas and oil wells less gas used for repressuring, nonhydrocarbon gases removed, and quantities vented and flared.

2/ Positive numbers indicate an increase in storage, thus a decrease in supply.

3/ Represents an imbalance between available supplies and consumption.

Table 15.43. NATURAL GAS: TOTAL AND AVERAGE QUANTITY AND VALUE OF NATURAL GAS DELIVERED TO CONSUMERS IN FLORIDA, 1988

Item	Total	Residential	Commercial	Industrial	Electric utilities
Quantity consumed (MCF)	282,792	14,891	37,834	75,518	154,550
Value ($1,000)	(NA)	(NA)	(NA)	(NA)	(NA)
Consumers (1,000)	(NA)	447	43	1	(NA)
Average value					
Dollars per thousand cubic feet	2.92	7.49	4.54	2.84	2.12
Cents per therm 1/	28.1	71.8	43.6	27.3	20.3
Average consumption					
Quantity (TCF)	(NA)	33	876	136,807	(NA)
Cost per consumer (dollars)	(NA)	250	3,980	(NA)	(NA)

MCF Million cubic feet. TCF Thousand cubic feet.

(NA) Not available.

1/ One therm equals 100,000 British Thermal Units.

Note: Beginning in 1987, consumption value is no longer reported.

IPC Individuals, partnerships, and corporations.

1/ Number of banks in each county includes each bank operating at least one office within the county, regardless of the location of its main office; therefore, a bank operating a branch in a second county would be counted as a bank in each county, but only once in the state total.

2/ Includes each location at which deposit business is transacted.

3/ Transaction, demand, and nontransaction deposits not included under IPC.

A/ Seven-month average.

Note: Data are annual weighted averages of loans for single-family mortgages made by savings and loans associations, mortgage bankers, commercial banks, and mutual savings banks. Data are collected by a survey conducted during the first five working days of each month and are subject to sampling variability. Metropolitan areas are defined as MSAs or PMSAs depending on a given year. See the Glossary for definitions and see the maps at the front of the book for area boundaries.

Note: Data are for all FSLIC-insured (Federal Savings and Loan Insurance Corporation) savings and loan associations and are the result of a survey. Some data have been estimated. Figures indicate the activity of an association within specific counties whether the county offices are home or branch offices, although some institutions with centralized accounting do not have precise data on savings by office.

Note: Data are sales reported to the Florida Department of Revenue for the 5 percent regular sales tax, 5 percent use tax, and 3 percent vehicle and farm equipment sales tax from January 1, 1987 through January 1988. In February 1988 the regular sales and use tax increased to 6 percent; this increase is reflected in the collections from March 1988 through December 1989. Sales occurred, for the most part, from December 1, 1986 through November 30, 1989. Kind of business data for counties are available from the Bureau of Economic and Business Research, University of Florida. Data includes all sales in the category, not just those to tourists, and are unaudited. See Table 16.81 for taxable sales for all businesses; see Table 23.43 for tax collections.

Source: State of Florida, Department of Revenue, unpublished data.

Table 20.25. HOSPITAL COSTS: AVERAGE COST PER DAY, AVERAGE HOSPITAL STAY, AVERAGE COST PER STAY, 1987, AND SEMI-PRIVATE ROOM CHARGES, JANUARY 1987 AND 1988 IN FLORIDA AND THE UNITED STATES

Item	Florida	United States
Average cost to hospital per adjusted inpatient day, 1987 A/ (dollars)	582.66	538.96
Average length of hospital stay, 1987 (days)	7.0	7.2
Average semi-private charges		
January 1987 (dollars)	202.06	238.78
January 1988 (dollars)	217.94	254.87
Percentage change in room charges: January 1987 to January 1988	7.9	6.7
Average cost to hospital per adjusted admission, 1987 B/ (dollars)	4,083.45	3,850.16

A/ Covers expense of inpatient care only and is derived by dividing expenses by inpatient days.

B/ Average expense to the hospital in providing care for one inpatient stay. Expenses derived by subtracting outpatient expenses from total expenses, and dividing the resulting amount by total admissions.

Table 20.26. PUBLIC HEALTH: EXPENDITURE BY PROGRAM AREA IN FLORIDA AND THE UNITED STATES, FISCAL YEAR 1986

(in millions of dollars)

Item	Florida	United States
Total expenditure	297,042	7,463,804
Program area		
Personal health	191,892	5,519,599
Environmental health	38,098	479,829
Health resources	35,485	650,894
Laboratory	11,771	237,898
Administration	11,056	465,059
Other	8,741	110,525

Note: Includes only expenditures of official state health agencies. Public health expenditures by agencies such as separate mental health of hospital authorities are excluded. United States includes Puerto Rico and Virgin Islands.

(NA) Not available.

1/ Includes volumes of books and bound periodicals.

2/ Serves Citrus, Levy, and Marion counties.

3/ Serves Duval and Nassau counties.

4/ Serves Bay, Gulf, Holmes, Liberty, and Washington counties.

5/ Serves Orange and Osceola counties.

6/ Serves Dixie, Gilchrist, Hamilton, Lafayette, Madison, and Suwannee counties.

7/ Serves Escambia and Santa Rosa counties.

Note: Libraries are omitted if they failed to report to the Division of Library Services or if they failed to meet or are not part of a system which met all of the following criteria: at least 10 hours of public service per week, a book collection of at least 2,000 volumes, at least 200 volumes purchased a year, and expenditure of at least $1,000 per year.

1989	27.9	60.7	55.8	25.0	60.1	15.0	17.8	17.4

1/ The crimes selected for use in the index are chosen based on their serious nature, their frequency of occurrence, and the reliability of reporting from citizens to law enforcement agencies. The Crime Index is used as a basic measure of crime.

2/ Actual offenses known to law enforcement officers, not the number of persons who commited them or number of injuries they caused.

Note: Rates may not add to totals due to rounding. 1988 data represent approximately 75 percent of the estimated actual reportable crimes in Florida due to changes in crime reporting standards and procedures. 1989 represents the first full year of data under this enhanced program. Definitions of some offense categories changed so caution should be exercised in comparing 1988 and 1989 data to numbers published for previous years.

Drug/narcotic sale	1,656	20,665	19,144	3,177	8,411	13,891	19
Drug/narcotic possession	4,630	58,574	53,148	10,056	31,833	31,297	74
Bribery	1	40	34	7	33	8	0
Embezzlement	337	1,681	1,504	514	1,221	792	5
Fraud	480	6,212	5,046	1,646	4,983	1,687	22
Counterfeit/forgery	294	4,988	3,889	1,393	3,445	1,823	14
Extortion/blackmail	41	266	278	29	166	140	1
Intimidation	1,321	13,793	12,653	2,461	8,991	6,093	30
Prostitution/ commercialized sex	124	9,103	4,538	4,689	6,518	2,679	30
Nonforcible sex offense	242	3,655	3,388	509	3,159	727	11
Stolen property: buy/receive/possession	930	5,496	5,697	729	3,397	3,009	20
Driving under influence	289	47,305	40,637	6,957	44,014	3,262	318
Destruction/damage/ vandalism	2,095	2,785	4,330	550	3,475	1,396	9
Gambling	34	805	758	81	396	440	3
Weapon violations	1,394	8,971	9,559	806	5,222	5,112	31
Liquor law violations	2,561	23,552	21,987	4,126	22,505	3,498	110
Miscellaneous	13,115	218,014	195,100	36,029	146,358	84,287	484

Note: A person is counted each time he/she is arrested or summoned; therefore, arrest counts do not reflect the specific number of persons arrested since one individual may be arrested several times for the same or different crimes. Arrest data are useful for measuring law enforcement activity and involvement in criminal acts by the age, sex, and race of perpetrators. Definitions of some offense categories changed in 1988 due to changes in crime reporting standards and procedures. 1989 represents the first full year of data under this enhanced program. Therefore, caution should be exercised in comparing 1989 data to numbers published in previous *Abstracts*.

1/ Actual offenses known to law enforcement officers, not the number of persons who committed them or number of injuries they caused.

2/ Includes murder, forcible sex, robbery, and aggravated assault.

3/ Includes breaking and entering (burglary), larceny, and auto theft.

4/ Clearance of an offense occurs when an offender is identified, charged, and taken custody, or occasionally when some element beyond law enforcement control precludes formal charges against the offender.

Note: Data are aggregates of offenses reported to municipal, county, and state law enforcement agencies and campus police departments.

(X) Not applicable.

1/ Actual offenses known to enforcement officers. Index offenses include murder, forcible sex, robbery, aggravated assault, burglary, larceny, and auto theft.

2/ Includes North Redington Beach.

Note: The data reflected in this table is by geographic jurisdiction and is not intended to depict an individual law enforcement agency's activity. Sheriff's office totals include the activity occurring within those incorporated jurisdictions who do not report directly to Uniform Crime Reporting (UCR) program. County totals reflect all UCR activity occurring within that county. State agencies are listed only for counties with state agency activity.

Table 23.60. STATE RETIREMENT SYSTEM: REVENUE, EXPENDITURE, AND BALANCES OF THE FLORIDA RETIREMENT SYSTEM, FISCAL YEARS 1986-87 AND 1987-88

Item	1986-87	1987-88
Revenue, total	2,772,026,840	2,366,498,682
Contributions	1,200,466,415	1,346,955,440
Investment earnings	546,908,057	826,953,689
Earnings from other trust funds 1/	1,782,259	262,941
Gain/loss on sale of investments	1,016,235,743	174,621,423
Other revenue and prior year adjustments	6,634,366	17,705,189
Expenditure, total	565,543,536	615,348,569
Benefit payments	528,948,419	588,206,043
Refunds	3,261,292	2,804,678
Operating expenses	10,230,372	10,852,317
Contractural investment management fees	14,244,860	12,239,990
Other	831,160	701,498
Refunds paid to brokers	8,027,433	544,043
Net addition to fund balance	2,206,483,304	1,751,150,113
Prior year fund balance	10,069,959,153	12,276,442,457
Year end fund balance (June 30)	12,276,442,457	14,027,592,570

1/ Includes social security, savings bonds, and medicare.

Table 23.61. STATE RETIREMENT SYSTEM: RETIREMENT TRUST FUND BALANCES, FISCAL YEARS 1986-87 AND 1987-88

Trust fund	1986-87	1987-88
Total	12,278,387,131	14,044,543,164
Florida Retirement System	12,276,442,457	14,027,592,570
Social Security	105,465	5,232,810
Optional Retirement Program	218,194	294,692
Institute of Food and Agricultural Sciences (IFAS) Supplemental Retirement Program	1,399,360	2,180,700
Medicare Trust Fund	221,655	225,824
Senior Management Service Optional Annuity Program Trust Fund	0	0
Health Insurance Subsidy Trust Fund	(X)	9,016,568

Note: Net assessed value is total assessed or just value less nontaxable value of property having a classified use value. Classified use value is the value at which agricultural land and certain privately owned park and recreation land is assessed for tax purposes. The "highest and best" use principle is relaxed and assessment is based on current use only. Some data are revised.

Nonagricultural	8,113,506	8,091,946	7,669,346	7,596,691

1/ The value of property for tax purposes as determined by the elected county property appraiser. Value is determined at the highest and best use of property, except for special classes provided for in Florida Statutes.

2/ The value against which millage rates are applied to compute the amount of tax levied. Total taxable value makes up the ad valorem tax base for units of government in Florida.

1/ The value of property for tax purposes as determined by the elected county property appraiser before deduction of exemptions and immunities. Value is determined at the highest and best use of property, except for special classes provided for in Florida Statutes.

2/ The value against which millage rates are applied to compute the amount of tax levied. The tax base of a unit of local government also includes the taxable value of personal property and centrally assessed property.

Source: State of Florida, Department of Revenue, *Florida Ad Valorem Valuations and Tax Data, 1989.*

Table 23.92. LOCAL GOVERNMENT: ASSESSED AND TAXABLE VALUES, MILLAGE RATES, AND TAXES ON MUNICIPAL REAL, PERSONAL, AND RAILROAD PROPERTY IN THE STATE COUNTIES, AND MUNICIPALITIES WITH A 1989 POPULATION OVER 15,000 IN FLORIDA, 1989

1/ Annual total reflects revisions not distributed to months.

Note: To arrive at state totals, data for metropolitan areas (MSAs and PMSAs) were taken from reports submitted by all places within these areas. Estimates of the data for nonmetropolitan areas in Florida and the United States were based on a sample of 14,000 permit issuing places prior to 1980; 16,000 places for 1980-1984; and 17,000 places for 1985-1989. Beginning with January 1986, data exclude public housing units. See Glossary for metropolitan area definitions and see map at the front of the book for area boundaries.

(NA) Not available.

Note: These sales were reported to the Department of Revenue for the 5 percent regular sales tax, the 5 percent use tax, and the 3 percent vehicle and farm equipment sales tax from January to December of each year. The sales occurred, for the most part, from December of the previous year through November of the posted year. In February 1988 the regular sales and use tax increased to 6 percent; this increase is reflected in the collections from March 1988. These data are not comparable with retail sales figures reported by the Bureau of the Census because of differences in definitions of retailers and retail sales. At various times, changes in the rate of the taxes or in the items to be taxed or excluded have been made. Data are unaudited.

Source: State of Florida, Department of Revenue, unpublished data.

Washington	89.74	63	97.34	81.17	84.34	99.22	93.42

Note: The Florida Price Level Index is a set of numbers which reflects the price level in each county relative to population-weighted statewide average (100 for each category) for a particular point in time, 1989. It measures price level differences from place to place in contrast to the consumer price index prepared by the U.S. Bureau of Labor Statistics, which measures price level changes from month to month. The basis for these comparisons is one of fixed standard of living which represents the consumption pattern of a typical wage earner or clerical worker. The index measures in each county the relative cost of living by this standard. See Table 24.79 for relative weights of items priced.

A/ Nursing homes with 25 or more beds.

B/ Excludes federal physicians and doctors of osteopathy. Rates are per 100,000 civilian population.

1/ All nonfederal short-stay hospitals.

2/ Rates per 1,000 civilian population.

3/ Covers expense of inpatient care only and is derived by dividing expenses by inpatient days.

4/ Determined in 1979-1981; includes both sexes.

APPENDIX. EXPLANATORY AND SOURCE NOTES BY SECTION AND SUMMARY OF SOURCES

SECTION 1.00. POPULATION

EXPLANATORY NOTES. The Bureau of Economic and Business Research Population Program prepared a revised series of intercensal population estimates for the 1980s which appears in Table 1.20. Extreme caution must be exercised when deriving annual changes from successive estimates. Calculating such changes can lead to inaccurate conclusions regarding population growth, especially for small places. The best base of any estimate of population change is generally the most recent census enumeration.

Counties and municipalities are legal and political entities, but, from a sociological point of view the community of which a person considers himself or herself to be a part may not correspond to such an entity. Terms like "Greater Jacksonville" or "the Miami area" are used to indicate the real community. People do not hesitate to cross city or county limits or even state lines to work, to buy or sell, or to seek cultural, medical, recreational, or social services. For this reason, the U.S. Office of Management and Budget has designated areas known as Metropolitan Statistical Areas (MSAs). An MSA is a geographic area with a large population nucleus together with adjacent communities which have a high degree of economic and social integration with that nucleus. These areas were designated as Standard Metropolitan Statistical Areas (SMSAs) before January 1983. New MSA designations were announced effective June 1983 and other areas have been designated since that date; further, some areas were redesignated as Primary Metroplitan Statistical Ares (PMSAs) and Consolidated Metropolitan Statistical Areas (CMSAs).

Under the new criteria, generally an area qualifies for recognition as a MSA in one of two ways: if there is a city of at least 50,000 population or an urbanized area of at least 50,000 with a total metropolitan population of at least 100,000. A MSA may include a single county or several counties which have close economic and social ties to a central city or urban area. In metropolitan complexes of one million or more population, separate component areas (previously MSAs or SMSAs) are defined if specified criteria are met. Such areas are designated PMSAs and any area containing PMSAs is designated as a CMSA.

In Florida, MSAs are defined in terms of entire counties. Population living in MSAs may be referred to as the metropolitan population. There are twenty designated metropolitan areas in Florida; nineteen were designated effective June 1983 and Naples-Collier County was designated June 1984. Two SMSAs were defined as PMSAs in 1983--Ft. Lauderdale-Hollywood-Pompano Beach and Miami-Hialeah. Together they comprise the Miami-Ft. Lauderdale CMSA. See Table 1.65 for population figures and the map at the front of this book for the list of counties in each Florida MSA. There is also at the front of the book a map showing the SMSA designations prior to 1983.

Agencies of the state government have designated various groups of counties as being parts of districts. There are eleven planning districts, each containing several counties which have common interests and needs for planning development in the area. A map in Section 1.00 shows the county assignment for planning districts. Department of Health and Rehabilitative Services districts are defined on a map in Section 7.00 and crop districts are on a map in Section 9.00.

SOURCES. The census of population taken once every ten years by the U.S. Bureau of the Census provides basic statistics about population. Selected data about Florida from the 1980 census are included in this *Abstract*. Detailed data have been released by the Census Bureau in printed and computer tape formats. Some 1980 data appeared in early *Abstracts* and are not repeated this year. At the back of this *Abstract* is an index of census information which appears in previous editions. The Bureau of Economic and Business Research published a collection of county census data titled *1980 Census Handbook: Florida Counties.* This volume provides 1980 county census data with some 1970 data included for comparison. There is also information on how to use census data, primary census sources, and the meaning of census terminology.

In addition to the decennial censuses, the Census Bureau issues a series of *Current Population Reports*, known as P-Series. These contain national, regional, and sometimes state population statistics resulting from periodic surveys, special censuses, and cooperative estimation and projection efforts between the individual states and the Census Bureau.

Between census years, estimates of the population of the state, counties, and municipalities of Florida are made by the Population Program, Bureau of Economic and Business Research (BEBR), University of Florida. These are released annually in *Florida Estimates of Population.*

The *Abstract* contains estimates and projections of population by age, race, and sex. Benchmark data are from the 1980 census. The age, race, and sex estimates and projections are developed by the Bureau of Economic and Business Research. Voting age population estimates are presented in Section 21.00.

Data on veterans come from the U.S. Veterans Administration in Washington, which releases reports on the age, location, and period of service of veterans. Data on immigrants are from the U.S. Immigration and Naturalization Services.

SECTION 2.00. HOUSING

SOURCES. The decennial census of housing is taken simultaneously with the census of population and provides basic information about people in their living arrangements. This *Abstract* contains a summary housing table (2.01) from the 1980 census. (For additional discussion of census data see source notes to Section 1.00 of this Appendix.) The Census Bureau issues subject series that provide statistics compiled on subjects from the decennial or special censuses and surveys. Table 2.08 presents information on housing characteristics from reports of the American Housing Survey (formerly Annual Housing Survey), which are included in the *Current Housing Reports* series.

The Bureau of Economic and Business Research (BEBR), University of Florida makes annual estimates of the number of households and average household size for intercensal years. These estimates are published in *Population Studies.*

Two agencies of the State of Florida provide information related to housing. The Division of Motor Vehicles of the Department of Highway Safety and Motor Vehicles publishes annual totals of tags sold to owners of mobile homes and recreational vehicles. The Division of Hotels and Restaurants of the State Department of Business Regulation publishes statistics on apartment houses, rooming houses, and licensed lodgings.

The *Directory* of the Florida Association of Homes for the Aging provides a list of homes with locations and number of units.

SECTION 3.00. VITAL STATISTICS AND HEALTH

EXPLANATORY NOTES. Vital statistics usually include data on births, infant deaths, abortions, illegitimate births, marriages, divorces, annulments, and deaths by cause. For births and deaths, "resident" is the term which indicates births or deaths among residents of a specified area regardless of where the event occurred, while "recorded" is the term used to identify births or deaths occurring in the specified area regardless of the usual residence of the person counted. The birth and death figures in this section are resident data. Marriages and dissolutions of marriage are reported by place of occurrence.

SOURCES. The Public Health Statistics Section of the Florida Department of Health and Rehabilitative Services (HRS) is the principal source of vital statistics data for Florida and its counties. Data are released on a monthly basis and later accumulated in an annual report, *Florida Vital Statistics*.

The National Center for Health Statistics in the *Vital Statistics of the United States*, annual, and *Monthly Vital Statistics Report* provides national and state vital statistics data.

Morbidity statistics, except for acquired immuno-deficiency syndrome (AIDS) data, are available from the Health Program Office of the HRS. Statistics on AIDS are available from the AIDS Program Office of the HRS.

The Alcohol, Drug Abuse and Mental Health Program Office of the HRS publishes each year the *Statistical Report of Hospitals*, containing information about the state mental hospital system.

SECTION 4.00. EDUCATION

SOURCES. The principal sources of information on education in Florida include the annual *Profiles of Florida School Districts*, reports from the Management Information Services (MIS) of the Division of Public Schools, and other publications of the Florida Department of Education.

Enrollment information about the State University System is available in the *Fact Book*, published by the Florida Board of Regents. Data on public community colleges come from reports of the Division of Community Colleges of the Florida Department of Education.

Public and private colleges and universities in Florida are included in the *Directory of Post-Secondary Institutions*, published by the U.S. Department of Education, Center for Educational Statistics.

The census of population taken every ten years also provides information about education, such as school enrollment and educational attainment.

Data on the extent of public education, the level achieved by the pupils, and the availability and enrollments of schools, colleges, and universities are included in Section 4.00. Employment and finances of educational institutions and data on educational services are in Section 20.00. Additional information on the public funding of education is in Section 23.00.

SECTION 5.00. INCOME AND WEALTH

EXPLANATORY NOTES. The earnings components of personal income are allocated on a place-of-work basis. These earnings are converted to a place-of-residence basis by means of a residence adjustment factor. Property income and transfer payments are then added to earnings, resulting in total income on a place-of-residence basis. This conversion is illustrated in Table 5.14. The first basis, earnings by place-of-work, is useful in the analysis of the income structure of a given area in terms of industrial markets and purchasing power. Expressed on a per capita basis, the latter basis, earnings by place-of-residence, is an indicator of living standards and welfare level. (The population estimates on which the per capita amounts are based are those of the U.S. Bureau of the Census and are not the estimates shown in the population section of this publication.) See Section 9.00 for estimates of farm income.

The U.S. Department of Commerce, Bureau of Economic Analysis (BEA) which develops the personal income statistics, annually updates their estimates. In 1985, the BEA undertook a comprehensive revision of the national income and product accounts (NIPA). Annual state estimates of personal income for the years 1969-85 were revised to reflect changes in data sources and estimation methods. Similar revised estimates for annual county and metropolitan areas are available. Some of the revised years are included with current estimates in historical tables in this section of the *Abstract*.

Families and unrelated individuals are classified as being above or below the poverty level by comparing their calendar year income to an income cutoff or "poverty threshold." The income cutoffs vary by family size, number of children, and age of the family householder or unrelated individual. Poverty status is determined for all families (and, by implication, all family members). Poverty status is also determined for persons not in families, except for inmates of institutions, members of the armed forces living in barracks, college students living in dormitories, and unrelated individuals under 15 years old.

The current census definition of poverty reflects revisions to a definition adopted in 1969. The revisions were recommended by a federal interagency committee in 1980. The poverty thresholds are revised annually to reflect changes in the Consumer Price Index. The poverty threshold for a family of four with two children under 18 in 1988 was $12,092. Poverty thresholds are computed on a national basis only. No attempt has been made to adjust these thresholds for regional, state, or other local variations in the cost of living. However, the Congressional Budget Office has developed thresholds based on alternative adjustments for inflation using the CPI-X1. These data are presented in Table 5.49.

The *Federal Register* published by the U.S. National Archives and Records Administration contains poverty thresholds which are used in various federal and state employment programs. In 1990, the poverty threshold for a family of four was $12,700.

The Statistics of Income series data published by the U.S. Internal Revenue Service are based on the tax-defined concept, adjusted gross income (AGI), which excludes certain types of income. Caution should be exercised in comparing this data over time as annual changes in tax law will continue to affect the definition of AGI.

State data showing distribution of income by income class is no longer published by the U.S. Internal Revenue Service. Table 5.03 presents percentage of income distributed by income class in the state based on results from the Florida Consumer Survey of the Bureau of Economic and Business Research, University of Florida.

SOURCES. The source for statistics on personal income in Florida is the U.S. Department of Commerce, Bureau of Economic Analysis (BEA). The BEA has made comprehensive estimates of personal income, by type and industrial source, covering all metropolitan areas and counties in the nation for selected years from 1929 through 1988. Annual estimates are published in *Survey of Current Business* monthly reports.

In Table 5.50, the "benchmark" income data for 1979 for households and families by county in the state are from the 1980 Census of Population. Estimates of money income are published by the U.S. Bureau of the Census in *Current Population Reports*, Series P-26 and P-60. (See Tables 5.45 and 5.47.)

One record of income is the annual reports of the U.S. Internal Revenue Service. Data from statistical samplings of individual tax returns generally showing sources, deductions, and tax credits are from the series *Statistics of Income* and *Individual Income Tax Returns*. Other publications of the IRS provide additional measures of income and wealth: *Partnership Returns and Corporation Tax Returns*.

The data on income distribution for the state by income class are from the Florida Consumer Survey of the Bureau of Economic and Business Research, University of Florida. Updated estimates of national poverty thresholds are published annually in the *Statistical Abstract of the United States* and the *Federal Register*.

SECTION 6.00. LABOR FORCE, EMPLOYMENT AND EARNINGS

EXPLANATORY NOTES. Tables of employment and payroll devoted to individual industries and nonprofit organizations are presented in this section and in other sections of *Abstract*. Data are from the State Unemployment Insurance

Program and are often termed "covered employment" or "ES-202" data. Any firm or nonprofit establishment whose employees are covered by state and federal unemployment laws must submit monthly reports on the number of persons on its payroll and the amount employees were paid so that the appropriate tax can be computed and collected. The data this reporting generates provide useful measurements of the impact of various kinds of industries, firms, or other organizations on the economies of the state and counties. The Bureau of Labor Market Information of the Florida Department of Labor and Employment Security compiles these statistics.

Covered employment data include most employed persons in Florida, but certain workers are specifically excluded from coverage. These are some agricultural and domestic employees, self-employed workers, and elected officials. Included among the excluded self-employed are such occupations as insurance or real estate agents whose earnings are from commissions. Certain nonprofit organizations such as churches may elect to participate in the program.

Also missing from the tables are data for the state or counties in which there were no firms or so few units that the information for an individual establishment might be made public or estimated by competitors. In these instances and when one firm in a specific category or county has 80 percent of the employment of all the business in that category or county, no employment numbers are reported. Numbers of "undisclosed" establishments are given by county in the footnotes and the aggregated total establishments, employment and payroll for these businesses are provided in the table. New disclosure guidelines adopted by the Department of Labor and Employment Security prevent the publishing of employment ranges for undisclosed establishments as has been present in covered employment tables in previous *Abstracts*.

The derivation and meaning of SIC codes are briefly discussed in the Preface of this *Abstract* and in the Glossary which lists the major industrial groups and codes. Table 6.21 presents data for all covered employees by industry and Tables 6.22 and 6.23 present employment data by county. Tables in various sections present state and county data by major industries and industry sub-groupings, such as Tables 12.50 and 12.52, 13.36 and 13.37, etc.

Detailed employment data for governments appear in Section 23.00.

SOURCES. The basis of statistics on the employment status of the population is a monthly Current Population Survey (CPS) conducted by the U.S. Bureau of the Census. The U.S. Bureau of Labor Statistics publishes monthly data from the CPS in *Employment and Earnings* and other related publications listed below. The Bureau of Labor Market Information, Department of Labor and Employment Security of the State of Florida has the responsibility of preparing estimates of employment status following procedures developed in cooperation with the U.S. Bureau of Labor Statistics. The Bureau of Labor Market Information publishes information about Florida in *Florida Employment Trends*, about metropolitan areas in *Labor Market Trends*, and releases special reports on small counties. Different samples are used to prepare these sets of employment and unemployment estimates.

The U.S. Bureau of Labor Statistics compiles statistics and publishes data on nonagricultural employment in Florida and its metropolitan areas. Its publications include *Employment and Earnings: States and Areas*, monthly *Employment and Earnings*, *Geographic Profile of Employment and Unemployment*, *Monthly Labor Review*, and the *Handbook of Labor Statistics*. It also publishes a series of bulletins under the title *News*.

The Florida Department of Commerce, Bureau of Economic Analysis publishes a periodic listing of the fifty largest employers in the state.

Statistics on seasonal agricultural employment are available from the Florida Department of Labor and Employment Security, Bureau of Labor Market Information. The U.S. Bureau of Economic Analysis provides data on farm proprietors and wage and salary workers. The data appear in Section 9.00.

Another source of data on employment by county and industry, *County Business Patterns*, is published each year by the U.S. Bureau of the Census. It provides information on employment by SIC code in the state and counties of Florida.

SECTION 7.00. SOCIAL INSURANCE AND WELFARE

EXPLANATORY NOTES. For purposes of managing state-administered public assistance programs, the state has been divided into eleven Health and Rehabilitative Service districts; a map showing these districts appears in this section.

SOURCES. The source of statistics on Social Security programs is the U.S. Department of Health and Human Services, Social Security Administration, *Social Security Bulletin* which is published monthly with an annual statistical supplement. The Department also publishes data on state programs and releases unpublished data.

Data on unemployment insurance are published in the *Annual Statistical Supplement* and data on workers' compensation programs are published periodically in the *Social Security Bulletin*.

The Health Care Financing Administration in the U.S. Department of Health and Human Services provides unpublished data on Medicare and Medicaid.

Four public assistance programs--for the aged, the blind, the permanently and totally disabled, and dependent children--are administered by the state but are financed in part by the federal government in grants to states under the Social Security Act. The principal source of state and national data on these programs is the U.S. Department of Health and Human Services. The principal source of data on Florida and its counties is the Florida Department of Health and Rehabilitative Services, *Annual Statistical Report*. Information about state assistance is also reported in the Comptroller's *Florida Comprehensive Annual Financial Report*.

The Division of Unemployment Insurance of the Florida Department of Labor and Employment Security has published a report entitled *Unemployment Insurance, Financial Data Handbook, 1938-82* and can supplement it with unpublished data through 1988.

SECTION 8.00. GEOGRAPHY AND ENVIRONMENT

SOURCES. Tables in this section which contain information relating to temperature, precipitation, and other climatic phenomena are based on data supplied by the Environmental Data Service of the National Oceanic and Atmospheric Administration, U.S. Department of Commerce. Their publications are issued both annually and monthly under the title, *Climatological Data, Florida*.

The 1980 Census of Population report *Number of Inhabitants, Florida* (PC80-1-A11) provides information on the area of the state and counties of Florida.

Information pertaining to the ownership of land in Florida by the federal government comes from the Bureau of Land Management of the U.S. Department of the Interior in *Public Land Statistics*.

The Bureau of Air Quality Management, Florida Department of Environmental Regulation provides information on air pollution in the report *Comparison of the Air Quality Data with the National Ambient Air Quality Standards*.

The Florida Department of Revenue reviews the ad valorem tax rolls submitted annually by county property appraisers. Armasi, Inc., a private firm working with the University of Florida, handles the distribution of software which geographically displays land use data by county section and provides data from the tax rolls. Table 8.10 presents summary land use values by county from the Department of Revenue files.

Data on water use is collected by the five water management districts in the state and from the Florida Department of Environmental Regulation. Some water use data is obtained from utilities and information on agricultural irrigation is collected by the Institute of Food and Agricultural Services (IFAS) at the University of Florida. The water use data in Tables 8.40 through 8.43 and 9.50 were compiled from these various sources by the St. Johns River Water Management District under special contract with the United States Geological Survey, Florida District.

SECTION 9.00. AGRICULTURE

EXPLANATORY NOTES. A census of agriculture was first taken in 1840 and has been taken every five years. Congress authorized agricultural censuses to be taken in 1978 and 1982 to coincide with the quinquennial economic censuses. After 1982, the agricultural census again reverted to a five-year cycle to be taken in years ending in "2" and "7." Data from the 1987 census dealing with the characteristics of farms and farm operators are presented in this section. An index at the back of this book lists census tables appearing in previous *Abstracts*. As defined since the 1978 census, a farm is "any place from which $1,000 or more of agricultural products were sold or normally would have been sold during the census year." Because data for selected items are collected from a sample of operators, the results are subject to sampling variability. Dollar values have not been adjusted for changes in price levels between census years.

When comparisons are made between Florida and other states, the other states selected either have a similar climate (the southern tier of sunbelt states) or produce similar crops (citrus in Arizona and California, sugarcane in Hawaii and Louisiana, etc.).

SOURCES. Timely and detailed data on farm receipts, income, production, and value of farm marketings are provided in tables based on annual publications of the U.S. Department of Agriculture, *Agricultural Statistics*, *Economic Indicators of the Farm Sector*, and other publications. Some data on farm income are presented in Section 5.00.

Data primarily covering characteristics of farms and farm operators is from the *1987 Census of Agriculture* reports published by the U.S. Department of Commerce, Bureau of the Census.

Agricultural employment information comes from the Bureau of Economic Analysis, U.S. Department of Commerce and from the Bureau of Labor Market Information, Florida Department of Labor and Employment Security. (See discussion under Section 6.00 of this Appendix.)

Expanded coverage of the Florida Unemployment Compensation Law beginning in 1978 has permitted the Florida Department of Labor and Employment Security to supply more comprehensive data on establishments, employees, and payroll of agricultural establishments, SIC codes 01, 02, and 07, that meet minimum employment and payroll standards.

Information about citrus production, other crop cultivation, and consumption of fertilizers is from the Florida Agricultural Statistics Service, Florida Department of Agriculture and Consumer Services. A complete series of crop estimates for the state dating back to 1919 are available from the Reporting Service upon request. The Florida Department of Citrus provides information on orange juice sales from A. C. Nielsen market research reports. The Florida Department of Professional Regulation has data on veterinarians licensed in the state.

The U.S. Department of Agriculture, Agricultural Stabilization and Conservation Service provides information on government payments and makes estimates of the number of farms. This agency also collects reports on nonresident alien ownership of agricultural land and has provided unpublished state and county estimates.

Information on irrigated water use in agriculture is obtained from the St. Johns River Water Management District and the Institute of Food and Agricultural Services (IFAS) at the University of Florida.

SECTION 10.00 FORESTRY, FISHERIES, AND MINERALS

SOURCES. The American Forest Institute provides data on tree farms. Forestry employment and payroll data come from the Florida Department of Labor and Employment Security, as does similar information for fishing and mining. (See discussion under Section 6.00 in the Appendix.) Acreage devoted to commercial forests by county is estimated by the Forest Service of the U.S. Department of Agriculture. The Division of Forestry of the Florida Department of Agriculture and Consumer Services provides data on the harvest of forest products.

The Florida Department of Natural Resources provides unpublished data on fish landings. The National Marine Fisheries Services, of the U.S. Department of Commerce, publishes data on fishery products, plants, and cooperatives in its annual *Fisheries of the United States*. Table 19.45 in Section 19.00 gives information on the number of commercial boats registered in the state and counties of Florida.

Basic data on the production of minerals are from the *Minerals Yearbook* and specific industry reports of the Bureau of Mines of the U.S. Department of Interior. Every five years the U.S. Bureau of the Census conducts an economic census which includes a census of mineral industries.

Land Areas of the National Forest System comes from the U.S. Department of Agriculture, Forest Service.

SECTION 11.00. CONSTRUCTION

SOURCES. Statistics on building construction activity and characteristics of that industry (SIC codes 15-17) are in this section. The principal sources of building permit data for Florida are the Bureau of Economic and Business Research (BEBR), University of Florida and the U.S. Bureau of the Census. The BEBR publishes monthly and annual summaries on the type and value of building permits for construction issued by local administrative offices throughout Florida in *Building Permit Activity in Florida*. The BEBR prepares projections of housing starts for Florida and its major metropolitan areas and makes them available exclusively to subscribers of *The Florida Outlook*. The Census Bureau publishes building permit and housing starts data in its monthly *Construction Reports* series. *Housing Units Authorized by Building Permits* provides monthly and annual information on shipments of mobile homes in addition to building permit data.

Every five years the U.S. Bureau of the Census conducts an economic census which includes the census of construction industries. Data from the census covers items such as receipts, employment, payroll, and value added. Tables in previous *Abstracts* present data from earlier censuses. Refer to the index of census tables in the back of this edition.

Additional sources of data on construction in the various states are reports available from F.W. Dodge Company, a division of McGraw-Hill, Inc. and the *Construction Review*, published monthly by the International Trade Administration of the U.S. Department of Commerce.

Data on employment and payrolls are supplied by the Florida Department of Labor and Employment Security. (See discussion under Section 6.00 of this Appendix.)

SECTION 12.00. MANUFACTURING

SOURCES. Major industry divisions for manufacturing comprise SIC codes 20-39. Data on the number of units, employees, and payroll for these establishments were obtained from the Bureau of Labor Market Information of the Florida Department of Labor and Employment Security. A number of industries are detailed in tables in this section and many include county breakdowns.

The U.S. Bureau of the Census conducts a complete count of manufactures every five years as part of its comprehensive economic census. The Bureau of the

Census also conducts, in intervening years, a sample survey called the *Annual Survey of Manufactures*. The annual survey program includes information on employment related to the export of manufactured goods.

The Bureau of Economic Analysis of the Florida Department of Commerce prepares a report of the larger manufacturers in the state, *Florida's Largest Manufacturing Firms*.

SECTION 13.00. TRANSPORTATION

SOURCES. The U.S. Department of Transportation provides data on roads and highways, tax receipts, and vehicles in *Highway Statistics*, a publication of the Federal Highway Administration. The same agency publishes annually a report entitled *Fatal and Injury Accident Rates on Federal-Aid and Other Highway Systems*. Information about licenses and drivers of motor vehicles comes from the Florida Department of Highway Safety and Motor Vehicles which also publishes *Traffic Accident Facts*.

Every five years the Bureau of the Census conducts an economic census which includes a census of transportation. The 1980 Census of Population provides data on means of transportation to work. An index at the back of the book lists tables from these censuses which appear in previous editions of *Abstract*.

Employment and payroll figures for all modes of transportation except interstate railroads are supplied by the Florida Department of Labor and Employment Security. Interstate railroads are not included because their employees are not covered by the same unemployment law as workers in other industries.

Water transportation (SIC code 44) includes both the movement of vessels through Florida waterways and the volume of commodities shipped into and out of Florida ports. The authorities of the various ports in the state have supplied data on their activities. The volume of waterborne exports and imports is supplied by the U.S. Bureau of the Census in *U.S. Waterborne Exports and General Imports*.

Air transportation (SIC code 45) is represented by data showing exports and imports obtained from *U.S. Airborne Exports and General Imports*, published by the U.S. Bureau of the Census. Air traffic information comes from two sources developed by the Federal Aviation Administration of the U.S. Department of Transportation: *FAA Air Traffic Activity* and *Airport Activity Statistics of Certified Route Air Carriers*.

SECTION 14.00. COMMUNICATIONS

EXPLANATORY NOTES. Newspaper publishing and other print media (SIC code 27) are considered to be manufacturing by the U.S. Bureau of the Census as well as the Office of Management and Budget, which establishes the Standard Industrial Classification. Since newspapers, periodicals, and books compete with electronic media in providing communications, data are repeated in this section. Table 12.50 in Section 12.00 shows newspapers as a component of the manufacturing industry.

SOURCES. Also included in Section 14.00 are data on the U.S. Postal Service (SIC code 43), telephones (SIC code 481), telegraph (SIC code 482), and radio and television broadcasting (SIC code 483). The Florida Public Service Commission supplies data on telephone companies in Florida. Employment and payroll data are from the Florida Department of Labor and Employment Security, Bureau of Labor Market Information. (See discussion under Section 6.00 of this Appendix.)

A copyrighted source has been used with permission for newspaper circulation: Editor and Publisher Co., Inc., *Editor and Publisher International Yearbook*. This yearbook provides detailed information for individual daily, weekly, and special audience newspapers.

SECTION 15.00. POWER AND ENERGY

SOURCES. Data in this section have been selected to describe the status of the electric, gas, and sanitary service industries, and the consumption and production of electricity, gas, gasoline, fuel oil, and nuclear power. Energy information is supplied by the Energy Information Administration, U.S. Department of Energy in its various publications.

A major source of data on electrical energy in Florida is *Statistics of the Florida Electric Utility Industry*, published by the Florida Public Service Commission. It supplies data on generating capacity, average consumption of electricity, electricity sales, and rates.

The Governor's Energy Office issues *Florida Energy Data*, which primarily covers energy consumption, but also contains pricing and production data.

The Bureau of Labor Market Information of the State Department of Labor and Employment Security supplies information on employment and payroll in the utility industry. (See discussion under Section 6.00 of this Appendix.)

Consumption of motor fuel data are obtained from the publication *Highway Statistics* of the Federal Highway Administration and from the Governor's Energy Office.

Information on consumer prices of energy as measured by the Consumer Price Index, is reported in Section 24.00.

SECTION 16.00. WHOLESALE TRADE AND RETAIL TRADE

EXPLANATORY NOTES. Data from the 1987 Censuses of Wholesale and Retail Trade comprise several tables in this section. (An index of census tables appearing in previous *Abstracts* is at the back of this edition.) Number of establishments, employment, payroll, and sales are presented both by kind of business and by county in which the establishments are located.

SOURCES. Covered employment and payroll information by kind of business and county come from the Bureau of Labor Market Information of the Florida Department of Labor and Employment Security. (See the discussion under Section 6.00 of this Appendix.) Since there are some differences in coverage and classification, these figures are not necessarily comparable with those from the economic censuses.

The Florida Department of Revenue is the source for information on sales reported by firms in connection with the sales and use tax laws. In addition to the tables present in this section, printouts of county gross and taxable sales by business category are available from the Bureau of Economic and Business Research on a subscription basis. These also vary in coverage and classification from either the census or the Florida Department of Commerce figures. Data on retail sales tax collections may be found in Table 23.43. A time series of gross and taxable sales is to be found in Table 24.30.

Professional persons who operate at the retail level and are required to have a license such as dispensing opticians or pharmacists are reported by the Florida Department of Professional Regulation. These data are reported in Section 20.00.

The Bureau of the Census conducts an economic census every five years. The census of wholesale and retail trade is part of this quinquennial census. The Bureau of the Census also publishes *Current Business Reports* which contains sales and other data.

SECTION 17.00. FINANCE, INSURANCE, AND REAL ESTATE

EXPLANATORY NOTES. Industries covered in this section are those SIC codes numbered 60 through 67, including banking and other credit agencies, establishments dealing in securities and commodities, insurance and real estate offices, and investment firms.

SOURCES. Summaries of banking data for Florida may be found in the *Annual Report of the Florida Division of Banking*, published by the Comptroller's Office. Another major source of banking data is the Federal Deposit Insurance Corporation, which issues an *Annual Report*, *Statistics on Banking*, and *Data Book Operating Banks and Branches*.

Figures on number of establishments, employment, and payroll for banking and credit, insurance, real estate and investment industries come from the Florida Department of Labor and Employment Security, Bureau of Labor Market Information. (See the discussion in Section 6.00 of this Appendix.)

Sources of information on savings institutions include the *Savings Institutions Sourcebook*, published by the U.S. League of Savings Institutions; the *FSLIC-Insured Institutions: Summary of Savings Accounts by Geographic Area* issued by the Federal Home Loan Bank Board and *Savings and Home Financing Source Book* issued by the Office of Thrift Supervision, U.S. Department of the Treasury. The Office of Thrift Supervision also provides unpublished mortgage activity for loans made for single-family houses.

A basic source of information on activities of insurance companies in Florida is the *Annual Report* of the Florida Department of Insurance. A source of information on the United States and for individual states is *The Fact Book: Property/ Casualty Insurance Facts*, published by the Insurance Information Institute. Data on life insurance are from the American Council of Life Insurance in its *Life Insurance Fact Book Update*.

Information on professional persons who handle real estate transactions and are required to have a license is reported by the Florida Department of Professional Regulation.

SECTION 18.00. PERSONAL AND BUSINESS SERVICES

EXPLANATORY NOTES. The Standard Industrial Classification System lists services from SIC code 70 to SIC code 89. In this section, tables based on the establishments covered by the unemployment insurance law cover personal services (SIC code 72), business services (SIC code 73), auto repair services and parking (SIC code 75), miscellaneous repair services (SIC code 76), engineering, accounting, research, management and related services (SIC code 87), and services not elsewhere classified (SIC code 89). Information about establishments with other service SIC codes are to be found in Sections 19.00, 20.00, and 22.00.

The United States Bureau of the Census has taken a census of services industries as part of the economic census every five years since 1967. In 1977, coverage of service industries broadened from "selected services" to "all services except religious organizations and private households."

Data from the 1982 Census of Service Industries are not used for any tables in this *Abstract* because the data for all service establishments were not available since the 1982 Census of Service Industries lacked data for establishments without payroll. Detailed information from the 1977 Census of Service Industries was published in the *1980 Florida Statistical Abstract* and an index of census tables appearing in previous *Abstracts* is at the back of this edition. (Data from the 1987 Census of Service Industries will be presented in the 1991 *Abstract*.)

SOURCES. Data on establishments, employment, and payroll of service establishments whose employees are covered by the unemployment insurance law are provided by the Bureau of Labor Market Information of the Florida Department of Labor and Employment Security. (See the discussion under Section 6.00 of this Appendix.) Data for the same area and industry from the census of service industries are not necessarily comparable because of differences in procedures, definitions, and establishments covered.

Many service establishments are operated by professional individuals who are licensed by the state. Data on these professionals have been supplied from the Florida Department of Professional Regulation.

Information on health, educational, and cultural services is reported in Section 20.00.

SECTION 19.00. TOURISM AND RECREATION

SOURCES. The Division of Tourism of the Florida Department of Commerce issues quarterly and county reports of tourist information and an annual report, *Florida Visitor Study: An Executive Summary*. It also supplies the unpublished results of a survey of Florida's top festivals and events. Data on tourist facilities (hotels, motels, and food service establishments) which are regulated by the Division of Hotels and Restaurants of the Florida Department of Business Regulation are available from the Department's *Master File Statistics*. The Florida Department of Revenue provides information on the sales of tourist-related businesses. Some of these data are in section 16.00 and are repeated here. The Department of Revenue also provides information on the tourist-development or local option tax collected in several counties.

Data on employment in tourist and recreation-related industries come from the Bureau of Labor Market Information, Florida Department of Labor and Employment Security. (See discussion under Section 6.00 of this Appendix.)

Data on boats registered by county in Florida are provided by the Department of Natural Resources, Division of Recreation and Parks. This agency also issues information on the nature, size, and popularity of state parks. Data on national parks in Florida were abstracted from the *National Park Statistical Abstract*, published by the National Park Service of the U.S. Department of the Interior.

The Division of Transportation Planning of the Florida Department of Transportation records traffic counts at strategic highway locations around the state. Estimates of the number of tourists entering Florida by automobile are made by the Florida Division of Tourism using these traffic counts and information from welcome stations. Tourist arrivals by air are based on arrivals at major airports. Individual visitors are interviewed on a randomly selected basis about expenditures and length of stay. Sample results are expanded to the total visitor population.

SECTION 20.00. HEALTH, EDUCATION AND CULTURAL SERVICES

SOURCES. Data on employment are from the covered employment and payroll figures supplied by the Bureau of Labor Market Information of the Florida Department of Labor and Employment Security. (See discussion under Section 6.00 of this Appendix.)

Information on physicians, dentists, nurses, opticians, pharmacists, and other licensed health service practitioners and professionals comes from the Department of Professional Regulation, State of Florida.

Bed capacity of licensed hospitals and nursing homes is reported by the Office of Licensure and Certification in the Florida Department of Health and Rehabilitative Services.

Health, United States is an annual publication of the U.S. National Center for Health Statistics (NCHS) and contains national and some regional and state data on health facilities and services. The Health Insurance Association of America provides data on hospital costs and public health expenditures in their publication *Source Book of Health Insurance Data*.

Educational establishment information comes from the Florida Department of Education: *Profiles of Florida School Districts*; the Division of Community Colleges, unpublished data; the Division of Public Schools, *MIS Statistical Briefs* and *MIS Statistical Reports*; and the Center for Educational Statistics of the U.S. Department of Education.

Library information is supplied by the Division of Library Services of the Florida Department of State in *Florida Library Directory with Statistics*.

Data on veterans hospitals comes from the U.S. Veterans Administration, *Annual Report*.

SECTION 21.00. GOVERNMENT AND ELECTIONS

SOURCES. Since 1957, every five years the U.S. Bureau of the Census conducts a census of governments. The census of governments covers four major subject areas: governmental organization, taxable property values, public employment, and governmental finances. Table 21.01 presents information from the 1987 census about governmental units by type in Florida and the United States. Table 21.07 is included to show numbers of local governmental units in Florida by county and by type. An index of census tables appearing in previous *Abstracts* is at the back of this edition.

The Division of Elections in the Florida Department of State provides information on registered voters and numbers of votes cast in given elections. Current figures on voting-age population are released annually by the Bureau of Economic and Business Research (BEBR), University of Florida.

SECTION 22.00. COURTS AND LAW ENFORCEMENT

EXPLANATORY NOTES. Data on criminal offenses are subject to certain limitations. Many crimes are not reported to law enforcement agencies and hence are not counted in preparing crime statistics. Victims may report crimes to prosecuting authorities rather than to law enforcement agencies or for various reasons may not report at all.

An additional factor to consider when studying crime rates in Florida is the presence of large numbers of tourists. The crime rates in this section are based on resident population. When adjustments are made for the tourist presence, the crime rate in Florida drops. *Crime in Florida* does not give modified crime rates for Florida counties; however, these data can be obtained from the Statistical Analysis Center (SAC) of the Florida Department of Law Enforcement.

SOURCES. The principal source of data on crimes and criminals in Florida is the annual report of the State Department of Law Enforcement, *Crime in Florida*.

Other sources on the criminal justice system include publications of two divisions of the U.S. Department of Justice: the annual, *Crime in the United States*, from the Federal Bureau of Investigation; and reports and bulletins from the Bureau of Justice Statistics.

Data on legal services come from the Florida Bar and the Florida Department of Labor and Employment Security, Bureau of Labor Market Information.

Prison and prisoner information is made available by the Federal Bureau of Prisons of the U.S. Department of Justice in its *Statistical Report* and the Florida Department of Corrections, *Annual Report*.

SECTION 23.00. GOVERNMENT FINANCE AND EMPLOYMENT

EXPLANATORY NOTES. A number of tables in the Health, Education and Cultural Services section (20.00) contain data on property valuations, revenue, expenditure, and taxes for education by public agencies. In Section 19.00, Table 19.54 provides figures on the tourist development/local option tax and Table 19.70 provides information about tax collections from tourist-related businesses.

Although the official records of the Comptroller are used by the Bureau of the Census in its compilations on state and local government finances, the Bureau of the Census has found it necessary at times to classify and present the government financial statistics in terms of its own system of uniform concepts and categories rather than according to the diverse terminology and structure of individual governments. This procedure explains the differences which may be found between similar data from the two sources.

SOURCES. The U.S. Bureau of the Census publishes a number of annual reports, including *State Government Finances, City Government Finances, County Government Employment, Public Employment, Finances of Selected Public*

Employee Retirement Systems (quarterly) and *Governmental Finances*. This edition contains data from the 1987 Census of Governments. (An index of census tables in previous *Abstracts* appears at the end of this book). The U.S. Bureau of the Census also releases annually *Federal Expenditure by State for Fiscal Year*.

Official records and reports of the Comptroller of the State of Florida comprise the basic source of information about government finances in Florida and are published in the *Florida Comprehensive Annual Financial Report* and *Annual Report of the Comptroller*. Other State of Florida sources of data on government finances and employment include the Department of Revenue, *Florida Ad Valorem Valuations and Tax Data*; the Department of Business Regulation, for data on pari-mutuel wagering and beverage licenses; Department of the Lottery, for ticket sales and appropriations for education; *The Report of the State Treasurer*; the Bureau of Labor Market Information on employment and payroll; and the Division of Retirement, *Annual Report*. A number of tables use as a source the *Local Government Financial Report* published by the Florida Department of Banking and Finance.

SECTION 24.00. ECONOMIC INDICATORS AND PRICES

EXPLANATORY NOTES. Tables in the first twenty-three sections of *Abstract* are cross-sectional or "snapshot" portrayals of a set of circumstances or a situation existing at any one time. Most tables in Section 24.00 contain data over several years because many readers are interested in charting trends over time.

Consumer price indexes are the work of the Bureau of Labor Statistics (BLS) of the U.S. Department of Labor and appear in the monthly *CPI Detailed Report*, *Monthly Labor Review*, the annual *Handbook of Labor Statistics*, and the U.S. Department of Commerce monthly publications *Survey of Current Business*. The BLS publishes two indexes: one reflecting the buying habits of all urban households (CPI-U) and one reflecting the buying habits of urban wage earners and clerical workers (CPI-W). Both indexes are comparable with historical CPI figures; the index for all urban households is used in tables in this section (except for the entry of the CPI-W index in Table 24.73). The CPI-U is based on information reflecting the buying habits of about 80 percent of the U.S. population and represents all urban residents, including professional workers, the self-employed, the poor, the unemployed, and retired persons. Not included are persons living outside urban areas, farm families, persons in military services, and those in institutions. The Bureau of Labor Statistics issues a bi-monthly CPI for the Miami-Ft. Lauderdale CMSA. (See Table 24.74.)

The BLS introduced a revised CPI with the release of the January 1987 index. Both the CPI-U and the CPI-W now use updated expenditure weights based on data tabulated from the consumer expenditure surveys. Also, the rental equivalence measures of home ownership costs in both the CPI-U and the CPI-W was improved to better represent both owners' and renters' shelter costs.

The BLS has conducted expenditure surveys since the late 19th century in order to gather information on price changes. Since 1973 the Consumer Expenditure Survey consists of a "diary" component--daily record of expenditures--and a quarterly interview. In past years data were reported separately for each component but the findings from the 1987 survey were integrated by BLS and are presented in Table 24.71.

The series of producer prices appears in Tables 24.72 and 24.75. According to the BLS, the series measures the average changes in prices received in primary markets of the United States by producers of commodities in all stages of processing. The sample used for calculating the indexes contains nearly 2,800 commodities and about 10,000 quotations selected to represent the movement of prices of all commodities produced in the agriculture, forestry, fishing, mining, manufacturing, gas, electric, and all public utilities sectors.

The *Florida Price Level Index* (FPLI) is prepared and released by the State of Florida Office of the Governor. The FPLI measures relative price levels across counties. Items representative of the expenditure categories used by the BLS in the CPI are surveyed in each county. Table 24.79 shows the relative weights of selected items in the survey; Table 24.80 compares the index and subindexes for major items across counties.

Data on price trends in construction are in Section 11.00. Section 15.00 contains additional information on energy prices.

In 1988 the U.S. Department of Commerce, Bureau of Economic Analysis introduced estimates of gross state product (GSP) by component and by industry for each state for the period 1963-86. GSP is the gross market value of goods and services attributable to labor and property located in the state. It is the state counterpart to national gross domestic product (GDP). Table 24.15 presents GSP estimates for Florida for specified years.

SOURCES. Extensive series of economic indicators for the United States, Florida and its counties are maintained in the BEBR Data Base, Bureau of Economic and Business Research, University of Florida.

The U.S. Department of Labor, Bureau of Labor Statistics prepares consumer and producer price indexes and publishes them in detailed monthly reports and the annual *Handbook of Labor Statistics*. The U.S. Department of Commerce also publishes indexes in the monthly *Survey of Current Business*.

The Department of Revenue of the State of Florida has data on sales and use tax collections.

The U.S. Department of Commerce, International Trade Administration reports building permit activity in the states in *Construction Review*. Table 24.20 presents data from current and previous editions of this publication back to 1975. The Bureau of Economic Analysis of the Department of Commerce published in the May, 1988 *Survey of Current Business* estimates of gross state product (GSP) for specified years back to 1963.

SECTION 25.00. STATE COMPARISONS

SOURCES. Both economic and noneconomic factors are listed in Table 25.01 to permit the reader to compare aspects of life in Florida with similar characteristics of living conditions in other Sunbelt and populous states. There are numerous sources to this table, most of which have been discussed in previous sections. The *U. S.. Abstract* published by the Bureau of the Census is a primary source for this table. A source not previously mentioned is the Bureau of the Census, *State and Metropolitan Area Data Book*.

SUMMARY OF SOURCES

STATE SOURCES. Most of the state publications are available free of charge from the agency which issues the report. Supplies are frequently limited and sometimes requests cannot be honored unless they come from other state agencies. The state has a system of state depository libraries, coordinated by the Division of Library Services, Florida Department of State, R.A. Gray Building, Tallahassee. All state agency publications are supposed to be on file in depository libraries or available for interlibrary loan. The reference departments of most libraries are willing to answer questions about data in these publications if the requests are not too time-consuming. The Florida Division of State Library Services issues a monthly and annual summary of state agency publications called *Florida Public Documents*.

Depository libraries of the State of Florida include the public libraries of Bay, Broward, and Orange counties, Cocoa, Jacksonville, Miami Beach, Miami-Dade, Ocala, St. Petersburg, Tampa-Hillsborough, and West Palm Beach. University libraries designated as depositories are those at Central Florida, Florida Atlantic, Florida (Gainesville), Florida International, Florida State, Miami, North Florida, South Florida, West Florida, Jacksonville, and Stetson universities. The State Library of Florida in the R.A. Gray Building in Tallahassee also is a depository.

FEDERAL SOURCES. Some federal reports are available without charge from the agency which issues the information, but most federal publications must be purchased from the Superintendent of Documents, U.S. Government Printing Office (GPO), Washington, D.D. 20402 (phone 202/783-3238) or from a local Government Printing Office bookstore. Publications purchased from the GPO must be paid for in advance. *The Statistical Abstract of the United States* is similar in purpose to the *Florida Statistical Abstract* and much more comprehensive. Readers who are interested in information about the nation, its regions, and states are referred to it.

The federal government also maintains a system of depository libraries in all 50 states, usually the same libraries as state depositories. The University of Florida is designated as a regional depository library and is required to receive and retain one copy of all depository government publications made available to depository libraries either in printed or microfacsimile form. Many of the libraries listed above as state depositories are also federal depositories and some are not listed. Refer to the annual directory printed by the University of Florida Libraries, *Federal Document Depositories and Resource Information for Florida and Puerto Rico.*

PRIVATE SOURCES. A number of private agencies and associations issue publications or reports which have been used in this and previous editions of *Abstract.* Some are copyrighted and have been used with permission. Several have additional information which can be obtained for a fee. The following is a partial list of agencies and addresses.

Alexander Grant and Company, 1700 Prudential Plaza, Chicago, Illinois
American Council of Life Insurance, 1850 K Street, N.W., Washington, D.C.
American Forest Institute, 1610 Massachusetts Avenue, N.W., Washington, D.C.
American Gas Association, Department of Statistics, 1515 Wilson Boulevard, Arlington, Virginia
Association of American Railroads, 1920 L Street, N.W., Washington, D.C.
Broadcasting, 1735 DeSales Street, N.W., Washington, D.C.
Editor and Publisher Company, Inc., 575 Lexington Avenue, New York, New York
Federal Deposit Insurance Corporation, 550 17th Street N.W., Washington, D.C.
Florida Association of Realtors, P.O. Box 1231, Orlando, Florida
Florida Associations of Homes for the Aging, 222 W. Pensacola Street, Suite 132, Tallahassee, Florida
Florida Credit Union League, Inc., P.O. Box 5138, Tallahassee, Florida
Florida Savings and Loan League, P.O. Box 2246, Orlando, Florida
Health Insurance Association of America, 1850 K Street, N.W., Washington, D.C.
Insurance Information Institute, 110 William Street, New York, New York
Sales and Marketing Management, 633 Third Avenue, New York, New York
Tax Foundation, Inc., One Thomas Circle, N.W., Suite 500, Washington, D.C.
U.S. League of Savings Associations, 111 E. Wacker Drive, Chicago, Illinois
U.S. Travel Data Center, 1899 L. Street, N.W., Suite 610, Washington, D.C.

COMPUTER TAPES. The University of Florida Library in Gainesville maintains an extensive collection of information of and about Florida in books, in files, and on computer tapes. All the data from the population, housing and economic censuses can be accessed from their computer tapes.

BUREAU PUBLICATIONS. The Bureau of Economic and Business Research can supply a variety of detailed information about Florida:

Florida Estimates of Population. Intercensal estimates of the population of Florida, its counties, cities and unincorporated areas. Also includes components of population change and density figures. Published annually.

Population Studies. Bulletins providing information on age, race and sex components of Florida's population, household numbers and average household size, projections of population, discussions of estimation and projection methodology and other topics related to population. Published 3-4 times a year.

Economic Leaflets. Data, analyses and background information on state and regional economic and business topics for those interested in economic trends and developments in Florida. Frequently contains current population, housing and personal income information. Published monthly.

Printouts of gross and taxable sales information. Printouts of sales information from the Florida Department of Revenue reports of gross and taxable sales for the sales and use taxes. Available by county and by kind-of-business category. Issued monthly and annually.

The Florida Outlook. Detailed quarterly forecasts of the Florida economy, incisive analyses of economic developments in Florida and the nation and the outlook for twenty of Florida's metropolitan areas. Published quarterly. Available only by subscription.

BEBR monographs. In-depth analyses of topics relevant to an understanding of the Florida economic and business climate. Issued periodically, in handy paperback format. Current titles include *Population Projections in the Real World: Tests of Forecast Accuracy*; *Local Government Economic Analysis Using Microcomputers*; *Cuban Immigration and Immigrants in Florida and the United States: Implications for Immigration Policy*; *Urban Development Issues: What is Controversial in Urban Sprawl?*; and *Preparing the Economic Element of the Comprehensive Plan*.

Building Permit Activity in Florida. Monthly comparisons, with an annual summary of the value and number of units permitted in the state, counties, cities and unincorporated areas of Florida.

BEBR Data Base. A computerized data management system which contains extensive economic data for the United States, Florida and all counties. Provides easy access to current and historical data for Florida, any of its counties and Metropolitan Statistical Areas and for the United States. Users can develop, edit, process and store their own data using BEBR Data Base software. Continuously updated. Available only by subscription.

County Profiles. Printouts of historical data for population, housing/construction, employment by industry, gross and taxable sales and income and earnings from the BEBR Data Base. Continuously updated. Available for individual counties.

Florida Consumer Survey. Survey data on Florida consumers' confidence in the economy, predictions for mortgage rates, and inflation and special topics.

Special publications:

- Charlotte Harbor Fiscal Impact Model
- Energy Use and Water Supply in Florida
- Financial Alternatives for Capital Improvements
- Florida's Infrastructure Needs and Resources: A Preliminary Look
- Modeling Capital Needs for Local Governments
- 1980 Census Handbook: Florida Counties

GLOSSARY

ALIEN. Person who is not a citizen of the United States whether or not he/she is a resident, legally or illegally.

AMERICAN INDIANS, ESKIMOS, AND ALEUTS. See Race.

ANCESTRY. A person's nationality group, lineage, or the country in which the person or the person's parents or ancestors were born before their arrival in the U.S. Different from other indicators of ethnicity, such as country of birth and language spoken in home and is a separate characteristic from race.

ASIANS. See Race.

BLACK PERSONS. See Race.

BUSINESS ESTABLISHMENT. A commercial enterprise.

CENTRAL BUSINESS DISTRICT (CBD). Commercial center of a city. An area of high land valuation, high concentration of retail and service businesses, offices, hotels, theaters, and high traffic flow. For census enumeration, in a metropolitan central city or other city of greater than 50,000 population.

CHILDREN. Sons and daughters classified as "own child of householder," including stepchildren and adopted children, who have never been married and are under age 18.

CIVILIAN LABOR FORCE. See Labor Force.

CLASS OF WORKERS. Private wage and salary workers who work for a private employer for wages, salary, commission, tips, pay-in-kind, or at price rates. Private employers include churches and other nonprofit organizations.
Also includes persons who consider themselves self-employed but who work for corporations where in most cases these persons own or are a part of a group that owns controlling interest in the corporation.
Government workers who work for governmental unit, regardless of the activity of the particular agency.
Self-employed workers who work for profit or fees in their own unincorporated business, profession, or trade, or who operate a farm. Includes owner-operators of large stores and manufacturing establishments, as well as small merchants, independent craft-persons and professionals, farmers, peddlers, and other persons who conduct enterprises of their own.
Unpaid family workers who work without pay on a farm or in a business operated by a person to whom they are related by blood or marriage.

COLLEGE STUDENTS. See Residency.

COMMUTE. Travel back and forth regularly, usually between place of residence and place of work.

CONSOLIDATED METROPOLITAN STATISTICAL AREA (CMSA). A large metroplitan complex in which individual metroplitan components, Primary Metropolitan Statistical Areas, (PMSAs) have been defined.

CONSUMER PRICE INDEX (CPI). A measure of the average level of prices over time in a fixed market collection of goods and services. The index is intended to represent prices of most items and services that people purchase in daily living, and is calculated to represent purchases by urban wage earners and clerical workers or by all urban consumers.

CONTRACT RENT. See Rent.

COUNTY. An administrative subdivison of a state; a local government organization and political jurisdiction which is authorized and designated by a state's constitution or statutes.

EARNINGS. Sum of wage and salary income and net income from farm and non-farm self-employment. Reported before deductions for personal income taxes, social security, bond purchases, union dues, and other deductions.

EDUCATIONAL ATTAINMENT. Years of school completed.

EMPLOYED PERSONS. All civilians 16 years of age and over that work at all as paid employees for an employer or, in their own business or profession, on their own farm or who work 15 hours or more as unpaid workers in an enterprise operated by a family member and all those temporarily absent from their jobs due to such factors as illness or vacation (during a given reference week).

ENERGY. The ability to do work; can exist in many forms such as chemical, light, heat, etc.

Primary energy is energy available from conversion of original fuel rather than from a secondary form such as electricity.

Renewables are energy sources that can be used continuously or regenerated quickly such as wind, sunlight, wood and solid waste.

FAMILY. A householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. All persons in a household who are related to the householder and are regarded as members of his or her family.

FAMILY INCOME. See Income.

FARM. Any place where $1,000 or more of agricultural products were sold in 1979 or normally would have been sold during the census year.

FARM POPULATION. See Rural farm population.

FIRM. A business organization or entity consisting of one or more establishment(s) under common ownership or control; a commercial partnership of two or more persons.

GROSS STATE PRODUCT (GSP). The gross market value of the goods and services attributable to labor and property located in a state.

GROUP QUARTERS. All institutions offering care or custody. Workers' dormitories, monasteries, convents, large rooming houses or boarding houses or communes having at least ten persons unrelated to the resident who maintains the living quarters. Certain living arrangements regardless of the number or relationship of the people in the unit such as military barracks, college dormitories, missions and flophouses. All persons not living in households are classified by the Bureau of the Census as living in group quarters.

HOUSEHOLD. The person or persons occupying a housing unit.

HOUSEHOLD INCOME. See Income.

HOUSEHOLDER. Person, or one of the persons, in whose name the home is owned or rented and who is listed in column one of the census questionnaire. If there is no such person in the household, any adult household member could be designated as "householder."

Family householder is a householder living with one or more persons related to him or her by birth, marriage, or adoption.

Nonfamily householder is a householder living alone or with nonrelatives only.

HOUSING UNIT. A house, an apartment, a group of rooms, or a single room occupied as a separate living quarters, or if vacant, intended for occupancy as a separate living quarters.

Occupied housing unit is the usual place of residence of the person or group of persons living there at the time of the census enumeration, or the unit from which the occupants are only temporarily absent (away on vacation, etc.).

Owner-occupied housing unit is one in which the owner or co-owner lives whether the unit is paid for or mortgaged.

Renter-occupied unit is any unit not classified as owner-occupied, including a unit rented for cash rent or one occupied without payment of cash rent.

Vacant housing unit has no one living in it at the time of census enumeration, unless the occupants are only temporarily absent. May be classified as "seasonal and migratory," or "year-round." Seasonal unit is intended for occupancy during only certain seasons of the year. Migratory unit is held for occupancy for migratory labor employed in farm work during crop season. Year-round vacant unit is available or intended for occupancy at any time of the year.

Year-round housing unit includes occupied and vacant units available or intended for year-round use. Excluded are vacant units intended for seasonal occupancy and/or held for migratory labor.

INCOME. The amount of money or monetary equivalent which is received during a specified time period in exchange for work performed, sale of goods or property, or from profits made on financial investments.

Adjusted gross income is a tax defined concept of income. Certain kinds of income such as some portion of capital gains, social security, and in-kind transfer payments are excluded and certain types of expenses such as some trade and business expenses, alimony payments, and contributions to individual retirement plans are deducted.

Family income is compiled by summing and treating as a single amount the income of all family members aged 15 and over.

Household income includes the income of the householder and all other persons age 15 and over in the household, whether related to the householder or not. Because many households consist of only one person, average household income is usually less than average family income.

Interest, dividend, or net rental income includes interest on savings or bonds, dividends from stockholdings or membership in associations, net royalties, and net income from rental of property to others and receipts from boarders or lodgers.

Labor income is an item generally used for various types of supplemental earnings in cash and in kind.

Mean income is the amount obtained by dividing the total income of a particular statistical universe by the number of units in that universe.

Median income is the amount which divides the income distribution into two equal groups; one having incomes above the median and the other having incomes below the median. For households, families, and unrelated individuals the median income is based on the distribution of the total number of units including those with no income. The median for persons is based on persons with income.

Money income. The sum of amounts reported separately for wage and salary income; nonfarm net self-employment income; farm net self-employment income; interest, dividend, net royalty or rental income; social security or railroad retirement income; public assistance or welfare income; unemployment compensation; alimony; veterans payments; and all other income. Not included are monies received from the sale of property; the value of income "in-kind" from food stamps, public housing subsidies, medical care, employer contributions for pensions, etc.; withdrawal of bank deposits; money borrowed; tax refunds; exchanges of money between relatives living in the same household; gifts and lump-sum inheritances, insurance payments, and other types of lump-sum receipts.

Personal income is current income received by persons from all sources. Measured before deduction of personal contributions to social insurance programs and income and other personal taxes. Is reported in current dollars. Includes the following categories of earnings: private and governmental wages and salaries; labor income; farm and nonfarm proprietors income; property income; and government and business transfer payments, but excludes transfers among persons. (Also, includes some nonmonetary income such as estimated net rental values--to owner--of owner-occupied homes, and the value of services furnished without payment, and food and fuel produced and consumed on farms.)

Disposable personal income is personal income less personal tax and nontax payments. Personal taxes include income, estate, gift, personal property and license taxes. Nontax payments include fines and penalties, tuition and donations.

Property income is net rental income, dividends, and interest.

Proprietors income is net income of owners of unincorporated businesses (farm and nonfarm with the latter including the income of independent professionals).

Public assistance income includes three items: supplementary security income payments made by federal or state welfare agencies to low income persons who are aged (age 65 or over), blind, or disabled; and to families with dependent children; and general assistance. Separate payments received for hospital or other medical care are excluded.

Social security income includes social security pensions and survivors benefits and permanent disability insurance payments made by the Social Security Administration prior to deductions. Medicare reimbursements are not included.

INDUSTRIAL CLASSIFICATION SYSTEM, STANDARD. Industrial classification system for classifying establishments by type of economic activity. Developed and published in a manual by the Executive Office of the President, Office of Management and Budget, and recently revised and published in 1987 (which supersedes the 1972/77 edition). Major industries are assigned two-digit SIC codes: 01 through 99; subdivisions are classified by three- and four-digit codes. The major industry groups and their SIC codes are as follows:

Agriculture (01, 02, 07)
Forestry and fishing (08, 09)
Mining (10-14)
Construction (15-17)
Manufacturing (20-39)
Transportation, communications , electric, gas, and sanitary services (40-49)
Wholesale trade (50-51)
Retail trade (52-59)
Finance, insurance, and real estate (60-67)
Services (70-89)

Public administration (91-97)
Nonclassifiable establishments (99)

An example of SIC coding is the construction industry which is divided into major group, SIC 15, "building construction--general contractors and operative builders;" group SIC 16, "heavy construction other than building construction;" and group SIC 17, "construction--special trade contractors." Group 15 is in turn divided into group 152--"general building contractors, residential buildings," group 153--"operative builders," and 154--"general building contractors, nonresidential buildings." Finally group 152 is subdivided into 1521--"general contractors, single-family houses," and 1522--"general contractors, residential buildings, other than single-family."

INMATES OF INSTITUTIONS. See Group quarters.

INTEREST, DIVIDEND, OR NET RENTAL INCOME. See Income.

LABOR FORCE. Includes the civilian labor force which comprises all civilians in the noninstitutional population 16 years and over classified as "employed" or "unemployed" and members of the Armed Forces stationed in the United States.

MANUFACTURED HOUSING. Any prefabricated dwelling such as mobile home or modular housing.

MANUFACTURING ESTABLISHMENT. An enterprise usually consisting of a single physical location where raw materials are transformed into new products.

MARITAL STATUS. Classification refers to the status at the time of census enumeration. Separated persons are those living apart because of marital discord, with or without a legal separation. Persons in common-law marriages are classified as married; persons whose only marriage has been annulled are classified as never married; all persons under age 15 are classified as never married. Single persons are those classified as never married.

MARKET VALUE. Amount a seller reasonably expects to obtain in a market for commodities, merchandise, services or whatever is being sold.

MARRIED-COUPLE FAMILY. Family in which the householder and spouse are counted as members of the same household.

MEDICAID. In all states except Arizona, a jointly-funded state and federal health care program for low-income persons. States establish their own eligibility criteria and may set benefits above the minimum established by Federal law.

MEDICARE. Federal health insurance program for people aged 65 and over. Also, covers (since 1973) eligible disabled persons of any age and persons with chronic kidney disease.

METROPOLITAN POPULATION. Population living inside metropolitan statistical areas (MSAs) or consolidated metropolitan statistical areas (CMSAs).

METROPOLITAN STATISTICAL AREA (MSA). A geographic area with a large population nucleus together with adjacent communities which have a high degree of economic and social integration with the nucleus. An MSA may include entire counties and generally has a city of at least 50,000 population or an urbanized area of at least 50,000 with a total metropolitan population of at least 100,000. This term replaces the term Standard Metropolitan Statistical Area which was used prior to January 1983. See maps at front of the book for lists of counties in SMSAs and MSAs.

MOBILE HOME. Moveable dwelling, ten or more feet wide and thirty-five or more feet long (a moveable dwelling of less than these dimensions is considered to be a travel trailer or a motor home), designed to be towed on its own chassis, and without need of a permanent foundation.

MILITARY PERSONNEL. See Labor Force and Residency.

MILL. Unit of monetary value equal to 1/1000 of a U.S. dollar.

MILLAGE RATE. Tax rate stated in mills where one mill produces one dollar of tax for every $1,000 of taxable property.

MONEY INCOME. See Income.

MUNICIPALITY. Political subdivision within which a municipal corporation has been established to provide a general local government for a specific population concentration in a defined area. In Florida, municipalities may be called cities, towns, or villages and have been established either by special acts of the legislature or by general law.

NONFAMILY HOUSEHOLDER. See Householder.

NONMETROPOLITAN POPULATION. Population living outside of metropolitan areas (as defined by the U.S. Office of Management and Budget).

NONPERMANENT RESIDENTS. Persons who indicate on the census form that they are in a residence only temporarily and have a usual home elsewhere.

NONPUBLIC SCHOOL. See Private school.

NONRELATIVES. Any persons in the household not related to the householder by birth, marriage, or adoption. Includes roomers, boarders, partners, roommates, paid employees, wards, and foster children.

OCCUPATIONAL LICENSING. Required operational licenses for professional persons who operate at the retail level such as dispensing opticians or pharmacists.

OCCUPIED HOUSING UNIT. See Housing unit.

OWNER-OCCUPIED HOUSING UNIT. See Housing unit.

PER CAPITA. (per person) A per capita figure is defined by taking the total for some item (e.g. government expenditures, income) and dividing it by the number of persons in the specified population.

PERSONAL INCOME. See Income.

PERSONS PER FAMILY. Number of persons living in families divided by the number of families.

PERSONS PER HOUSEHOLD. Number of persons living in households divided by the number of households.

PLACE OF BIRTH. For census enumeration, the mother's usual state or country of residence at the time of birth. Native-born persons are those born in the U.S., Puerto Rico, or an outlying area of the U.S. Includes a small number of persons born at sea or in a foreign country but with at least one American parent. Foreign-born persons are those not classified as native born.

PLACE OF WORK. Geographic location at which workers carried out their occupational activities.

POVERTY STATUS. Defined by income levels determined by federal interagency committees which (depending on family or household size) describe a family or household as being in extreme want of necessities. Income cutoffs or poverty thresholds used by the Bureau of the Census to determine the poverty status of families and individuals are defined by family size and by presence and number of family members aged 18 and under. Unrelated individuals and two-person families are differentiated by age of householder. Poverty thresholds are revised annually to allow for changes in the cost of living as reflected in the Consumer Price Index and are computed on a national basis only.

POVERTY THRESHOLD. See Poverty status.

PRIMARY METROPOLITAN STATISTICAL AREA (PMSA). A metropolitan statistical area which is part of a larger urban complex with a population over one million and is designated as a Consolidated Metropolitan Statistical Area (CMSA).

PRIVATE SCHOOL. Any individual, association, co-partnership or corporation which designates itself an education center and which includes kindergarten or a higher grade below college level. Primarily supported by private funds.

PROPERTY INCOME. See Income.

PROPRIETORS' INCOME. See Income.

PUBLIC ASSISTANCE INCOME. See Income.

PUBLIC SCHOOL. Any school which is controlled and supported primarily by a local, state, or federal agency.

RACE. In census enumeration, reflects self-identification by respondents and does not necessarily denote a scientific definition of biological stock.

American Indians, Eskimos, and Aleuts includes persons who classified in one of these specific categories or who entered the name of a specific Indian tribe.

Asians and Pacific Islanders includes persons who indicated their race as Japanese (also Nipponese and Japanese American), Chinese (also Taiwanese and Cantonese), Filipino, Korean, Vietnamese, Asian Indian, Hawaiian, Guamanian, or Samoan.

Black persons includes those who indicated their race as Black or Negro, as well as persons who classified themselves as Jamaican, Black Puerto Rican, West Indian, Haitian, or Nigerian.

Other race category includes Asian and Pacific Islander groups not listed separately (Cambodian, Laotian, Pakestani, or Fiji Islander); persons who wrote in entries such as Cuban, Puerto Rican, Mexican, or Dominican; and persons who indicated other races not included in specific categories.

White persons includes those who indicated their race as "white," as well as persons who entered a response such as Canadian, German, Italian, Lebanese, or Polish.

RENT OR CONTRACT RENT. Monthly payments made for the temporary occupancy of a building, regardless of any furnishings, utilities, or services that may be included. The statistics on rent are tabulated for "specific renter-occupied" housing units and for "specified vacant for rent" housing units which include renter units except one-family houses on 10 or more acres. In census enumeration excludes any rent paid for additional units or for business premises. Renter units occupied without payment of cash rent are categorized separately as "no cash rent."

RENTER-OCCUPIED HOUSING UNIT. See Housing unit.

RESIDENCY. The place where a person lives and sleeps most of the time. The place may not be the person's legal or voting residence. College students are considered to be residents of the community in which they live while attending college. Military personnel (persons in the armed services) are counted as residents of the area in which their installations are located.

RETAIL TRADE. Businesses primarily engaged in selling merchandise for personal, household, or farm consumption.

RURAL FARM POPULATION. Only in rural areas and includes all persons living on places of one acre or more from which at least $1,000 worth of agricultural products were sold during 1979.

RURAL POPULATION. Population not classified as urban.

SCHOOL DISTRICT. A political organization and jurisdiction that supports and administers local public schools. There is an independent school district in each Florida county and there are 28 community college districts in the state.

SCHOOL ENROLLMENT. Cumulative number of students registered during a school year.

SEPARATE LIVING QUARTERS. Where occupants live and eat separately from other persons in the building and have direct access from the outside of the building or through a common hall.

SERVICE INDUSTRIES. Establishments primarily engaged in rendering a wide variety of services to individuals and to business establishments.

SIC. Abbreviation of Standard Industrial Classification. See Industrial Classification System, Standard.

SOCIAL SECURITY INCOME. See Income.

SPANISH OR HISPANIC ORIGIN. Persons who classified themselves in one of the Spanish origin categories listed on the census questionnaire--Mexican, Puerto Rican, Cuban, or other Spanish/Hispanic origin.

SPECIAL DISTRICT. A local government entity that has been established to provide one or more specific functions such as fire protection, public transit, water management, libraries, or hospitals. About one-third of Florida's special districts have taxing power.

STANDARD METROPOLITAN STATISTICAL AREAS (SMSAS). See Metropolitan Statistical Areas.

TENURE OF HOUSING UNIT. See Housing unit.

TRANSFER PAYMENTS. General disbursements to persons for which they do not render current services. These include payments by government and business to individuals and nonprofit institutions.

UNEMPLOYED PERSONS. All civilians 16 years of age and over who do not work and who actively seek employment, and who are available to work except for temporary illness (during a given reference week).

UNITS IN STRUCTURE. The number of occupied and vacant housing units in a "structure" or separate building.

UNRELATED INDIVIDUAL. Householder living alone or with nonrelatives or household member who is not related to the householder by blood, marriage, or adoption, or person living in group quarters who is not an inmate of an institution.

URBAN POPULATION. Comprises all persons living in urbanized areas and in places (incorporated and unincorporated) of 2,500 or more inhabitants outside urbanized areas.

URBANIZED AREA. Incorporated place and adjacent densely settled surrounding area that together have a minimum population of 50,000.

VACANT HOUSING UNIT. See Housing unit.

WHITE PERSONS. See Race.

WHOLESALE TRADE. Establishments primarily engaged in selling merchandise to retailers, to institutions, to industrial, commercial, and professional users, or to other wholesalers.

WORKERS. See Labor force and Class of workers.

WORKER'S COMPENSATION. State administered medical care payments and income maintenance. Benefits are granted for work caused disability, illness, injury or death.

YEAR-ROUND HOUSING UNIT. See Housing unit.

YEAR STRUCTURE BUILT. Refers to when the building was first constructed. For a houseboat, mobile home, or trailer, the manufacturer's model year.

ZIP CODE. Five digit code used by the post office to identify geographical postal zones. The first digit identifies one of ten postal national service areas. The second digit identifies a state, a portion of a large state or two smaller states. The third digit identifies a portion of a state--a "sectional center" or "zoned city." The fourth and fifth digits identify specific postal facilities. A sectional center is the hub city and surrounding areas; a zoned city is a large city where the city itself is the postal zone.

INDEX OF CENSUS TABLES

THE U.S. BUREAU OF THE CENSUS CONDUCTS VARIOUS CENSUSES AT REGULAR INTERVALS. THIS INDEX LISTS TABLES FROM PREVIOUS *FLORIDA STATISTICAL ABSTRACTS* WHICH INCLUDE DATA FROM THESE CENSUSES. ALL TABLES WITH DATA FROM THE CENSUS OF POPULATION AND HOUSING APPEARING IN PREVIOUS *ABSTRACTS* ARE INCLUDED HERE. FOR OTHER CENSUSES, ONLY THE ONE OR TWO MOST RECENT CENSUSES ARE INDEXED. NO TABLES IN THE 1990 EDITION OF *ABSTRACT* ARE INCLUDED HERE.
